

HVAC INDUSTRIES

FOR A SUSTAINABLE TOMORROW

CAPABILITY STATEMENT 2024

COMPANY OVERVIEW

HVAC Industries Pty Ltd sets the benchmark in the HVAC sector with tailored, energy-efficient solutions for commercial and residential spaces. Based in Sydney, our foundation is built on over a decade of industry experience, we deliver optimal environmental comfort, elevating industry standards through innovation and exceptional service across New South Wales, with the capacity to work interstate.

Capable of undertaking Tier-1 and Tier-2 projects, we bring unparalleled attention to detail and a steadfast commitment to quality. Our team, combining both engineering and architectural expertise, adeptly bridges the gap between design aesthetics and engineering functionality. We advance industry standards with excellent quality service, precise engineering, focusing on eco-efficiency and sustainability.

Enhance your commercial space with HVAC Industries. Explore customised, energy-efficient solutions designed to meet your unique requirements.

Leveraging our extensive experience in industries across the commercial and residential sectors, we blend engineering precision with insightful knowledge to deliver exceptional quality. Our expertise enables us to design systems that seamlessly align with project visions, prioritising functionality, safety and quality. From the ground up, our approach ensures solutions not only elevate environmental comforts, also enhancing system design and performance to meet client needs.

HVAC INDUSTRIES CORE VALUES

Safety

Prioritising the well-being of both clients and staff through rigorous safety protocols and training.

Ingenuity

Innovating with creative designs and solutions to tackle any complex challenges seamlessly.

Efficiency

Maximising energy efficiency to reduce costs and environmental impact, without compromising performance.

Quality

Commitment to excellence in every project, ensuring durability and reliability of HVAC systems.

Culture

Innovating with creative designs and solutions to tackle any complex challenges seamlessly.

Client Satisfaction

Committed to surpassing client needs through customised, agile responses and unmatched support.

OUR SERVICES

HVAC Industries excels in procurement, project planning and risk management, ensuring a smooth progression from design to handover. We meticulously program and manage risks, utilising step-by-step checkpoints and quality assurance allowing our team to identify and overcome any potential issues. Committed to innovation, sustainability and client satisfaction, we oversee every aspect from consultation to customised design, through to installation and ongoing maintenance. Direct partnerships with OEMs enhance our capabilities, solidifying our position as a premier contractor dedicated to client contentment.

✓ Commercial And Residential Projects

Our engineering department excels in delivering customised HVAC solutions for both commercial and residential projects. For commercial projects, we recognise the importance of creating temperature controlled and productive environments while also optimising energy usage to reduce operational costs. Our team works closely with clients to design and implement HVAC systems that meet the demands of various commercial spaces. Whether it's ensuring proper ventilation for indoor air quality or implementing advanced control systems for temperature regulation, we prioritise efficiency and effectiveness in every aspect.

✓ Fitout

Our expert team specialises in commercial HVAC fitouts, prioritising new and existing structures. Collaboratively, our commissioning engineers and on-site staff adhere to client specs and regulations, ensuring cost-efficient and energy-efficient designs without compromising quality or compliance with Australian standards and BCA regulations.

✓ Maintenance

Our service department offers comprehensive maintenance to ensure the continued performance and efficiency of your HVAC systems. We optimise system functionality to prevent potential issues, extend the lifespan of your equipment, minimise downtime and reduce energy consumption.

✓ System Upgrades

We offer system upgrade solutions to enhance the performance and capabilities of your HVAC systems. Whether it's replacing outdated components, integrating new energy-efficient technologies, or improving system controls. Our experienced technicians can recommend and implement upgrades that align with your goals and budget.

INDUSTRIES WE SERVE

Our expertise extends to a wide array of industries, delivering custom HVAC solutions that enhance efficiency and air quality for clients in diverse and demanding operational environments.

- Commercial
- Residential
- Healthcare
- Education
- Hospitality
- Fire Safety
- Government
- Annual AFSS
- Industrial and Manufacturing
- Technology and Data Centres
- Commissioning and Balancing
- Design and Engineering
- Value Engineering

WHY US

✓ Standards

High ethical, commitment and performance standards define us, encouraging innovation and collaboration.

✓ Culture

Our culture defines our operations at HVAC Industries. We emphasise collaboration and excellence to drive success through unique and impactful partnerships.

✓ Maintenance

Our service department offers comprehensive maintenance to ensure the continued performance and efficiency of your HVAC systems. We optimise system functionality to prevent potential issues, extend the lifespan of your equipment, minimise downtime and reduce energy consumption.

✓ Customers

We build trust-based, enduring relationships, actively maintaining involvement across the building lifecycle.

✓ People

Team cooperation and exceptional talent is our core strength which sets us apart.

✓ Community

We value our responsibility as a corporate entity and view ourselves as a vital member of the community. Our constant endeavour is to achieve excellence in all aspects of our operations.

OUR CLIENTS

At HVAC Industries, our service goes beyond transactions; it's a commitment to excellence and ensuring customer satisfaction. We aim to exceed expectations from the initial handshake, offering top-quality installation, maintenance and repairs.

Our team of skilled technicians are well-trained and equipped with the latest technology, capable of handling any HVAC challenge efficiently and effectively.

Integral to our ethos is a dedication to transparency and honesty. We ensure clear communication and straightforward dealings, guaranteeing that you're always informed. This approach is the cornerstone of our trusted service.

CASE STUDY

SOUTH VILLAGE, KIRRAWEE

✓ The Project

South Village redefines Kirrawee with a vibrant blend of residential and retail spaces, featuring a 9,000sqm parking facility and a 14,000sqm shopping precinct. Entrusted with the pivotal HVAC design and installation, our expert team joined the project amidst an active construction schedule, demonstrating adaptability and efficiency. Despite the late start, our commitment under the \$17 million Mechanical Contract ensured seamless integration, contributing to the community's sustainable development.

✓ Our Approach

In addressing the year-long delay, our response was a targeted deployment of specialised teams. Team 01 tackled programming and procurement of critical elements, while Team 02 evaluated completed sections for design alignment. Team 03 managed early procurement of materials with long lead times and Team 04's on-site workforce of 100 executed the installation seamlessly. This orchestrated effort ensured we met the revised timelines without compromising on our dedication to excellence.

✓ The Result

At South Village, our proficiency in coordinated project management and risk mitigation meant we not only met but outperformed the challenging time constraints. This project's early completion stands as a testament to our resilience, dedication and industry-leading capabilities, raising the bar for construction project execution and delivery within the sector.

- Overcame 1-year delay
- Exemplary project management
- Elevated industry standard
