

electrum

Electrum Portfolio Managers

ELECTRUM – Symbol of Wealth and Excellence

Electrum is a naturally occurring alloy of Gold which was used to make coins, jewellery and ornaments. The earliest known coins in the Western world were minted of electrum and it remained popular for coinage until about 350 BC. Electrum is believed to have been first used in coins around 600 BC in Lydia during the reign of Alyattes. Electrum was a preferred alloy as its harder and more durable than pure gold.

In ancient times, the chief source of electrum was Lydia, around the Pactolus River, a tributary of the Hermus, now called the Gediz Nehri in Turkey. Unless you visit a museum or win the Nobel Prize, your best chance of finding electrum is to seek it as a natural alloy.

We have christened our Company on the ancient metal used as currency and even today used in the Nobel Prize Medal, which is associated with outstanding intellectual contribution.

Electrum Stater

Our Ethos

- **Client First**- Client is the focus of our existence
- **“Return of Capital”** is more important than **“Return on Capital”**- We strive to live by Warren Buffet’s 2 golden rules “Rule no 1 – Never Lose Money, Rule no 2- Never forget Rule no 1”
- **Agility** – **“When Facts change, I change my Mind, what do you do sir”**- These golden words from John Maynard Keynes are close to our heart in this ever-changing dynamic world
- **Work Matters ! Integrity is Non-Negotiable**

Vidya is a graduate from Mumbai University.

Proposed Offering

Portfolio Management and Equity Advisory Services

- Discretionary Portfolio Management
- Non-Discretionary Portfolio Management
- Equity Advisory
- Family Office Advisory

Investment Philosophy

The Core of our philosophy lies in investing in businesses with long term moats, strong management with good corporate governance and disciplined financial management.

We believe management is the one who makes or breaks a business and we put lot of focus on understanding people running the business

We are biased towards value philosophy in selecting our businesses and are always on lookout for growth at reasonable price

Our aim is to generate wealth over long term by investing in smaller companies that have the capability to reach greater heights. We aim to provide stable risk adjusted returns over long period of time.

We swear by famous rule of legendary investor Warren Buffett –

**Rule no 1- Don't lose capital and
Rule no 2 -Don't forget rule no 1.**

Investment Philosophy – “E L E C T” Framework

“E”- Excellent Management Pedigree	“L” – Longevity and Sustainability of Business	“E” – Earnings Growth	“C”- Capital Efficiency	“T” – Turnaround/ Value Mispricing/Contra Opportunities
<ul style="list-style-type: none"> • Prudent Capital Allocation and Conservative financial management • Skin in the game/ Shareholding Interest • Conflicting businesses • Superior Execution track record • Honest, passionate, Hunger for Growth 	<ul style="list-style-type: none"> • Competitive Advantage/ Moat- Brand, Distribution, Switching costs, Technology, Low cost, Scale • Entry Barrier- Network Effect, Regulatory, Logistical • Strong Product Profile and New Product/ Business Development 	<ul style="list-style-type: none"> • Growing Industry/ Opportunity Size • Market share Gain, Geographical Expansion, New products Opportunities • Long term Sectoral Tailwinds • Growth Vs Market growth Estimate 	<ul style="list-style-type: none"> • High Return on capital/ Equity • Low capital intensity- High Asset Turns, Low Working capital • Strong Operating Cash Generation- OCF/EBIDTA • Dividend Payouts/ Efficient Capital deployment 	<ul style="list-style-type: none"> • Price Value mismatch – We are value seekers • Business in Transition – Management, Product, geography • Out of favor – Industry, Company available cheap • Special situations- Spin offs, Acquisitions

Investment Process

Screening and Ideation	Fundamental Analysis	Management Meeting and Channel Check	Stock Selection
<ul style="list-style-type: none"> Quantitative and Qualitative screening – ROCE, ROE, Cash Flow, Asset Turns, leverage, Growth Team track record Industry and Market Network, Sell side brokers Business/ Industry Insights 	<ul style="list-style-type: none"> Annual reports, Conference calls, Management Interviews P&L and Balance sheet analysis Competition Mapping Business Opportunity Industry analysis 	<ul style="list-style-type: none"> Management Meetings Plant visits Distributors, Suppliers, Competitor interactions Industry Specialists 	<ul style="list-style-type: none"> Long term compounders Contra opportunities – lower valuations due to industry setbacks, company specific issues, out of favor Changing opportunity landscape- New product/ Management/Regulation Companies with strong tailwinds for earnings growth and possible multiple expansion

Key Filters – Investment Process

Industry Nature	<ul style="list-style-type: none">• Mature/ Declining/ High Growth• High Fixed Cost/ WC Needs
Competitive Intensity	<ul style="list-style-type: none">• Very crowded/ Oligopoly/ Monopoly• Price Coordination/ Volatile Market Shares
Competitive Positioning	<ul style="list-style-type: none">• Pricing Power/ Substitution
Company Type	<ul style="list-style-type: none">• Fast Growing/ Cyclical/ Slow Growing
Competitive Advantage	<ul style="list-style-type: none">• Dominant Position, Scale benefits, Patents• Entry barriers/ Incremental ROI
Dependance	<ul style="list-style-type: none">• Customer Composition / Supplier Concentration / Credit Cycle
Management Quality	<ul style="list-style-type: none">• Audit Report / Related Party Transactions• Board Composition / Share Pledge
Earnings Quality	<ul style="list-style-type: none">• Receivable Growth/ Cash Conversion• Intangibles / Leverage
Valuation	<ul style="list-style-type: none">• Valuation-Growth Mismatch/ Contrarian-out of favor
Off Balance Sheet	<ul style="list-style-type: none">• Forex/ Derivative Liability• Pending Dilution / Hidden Value

Key Filters - What We Check

Management Integrity – We closely check auditor’s qualifications, related party transactions, web of subsidiaries/associates with unclear investments and strategies, contingent liabilities, empire building, very high remuneration to family members, conflicting businesses in same industries. We are very focused on ensuring financials reflect the inherent strength of the franchise.

Leverage – We closely monitor unsustainable leverage and promoter equity pledging.

Capital Misallocation History – Regular checks on diversification in unrelated businesses and investment in promoters' private companies in unrelated areas.

Asset/ WC heavy businesses – We keep close tabs on low visibility of cash generation in long term and profits not converting into cashflows.

Value traps – Although we are value biased investors, we avoid value traps like high cash on balance sheet without growth/ utilization visibility and value driven by unutilized real estate without growth opportunity in core businesses.

We avoid companies with a **History of loan default/ debt restructuring** in the company or promoter group entities

Portfolio Construction and Risk Management

Qualitative and Quantitative screening to create an **Investment universe of nearly 100 companies**

Detailed evaluation of the character of business and valuation of the universe

Regular interactions with management teams of portfolio companies and key competitors to understand sector head/tailwinds

Filtering down to 35-40 companies to be part of portfolio strategies

Focus on individual stock picking however portfolio risk management through sector diversification stock weight management

No stock to be more than 12% weight and No sector more than 35% at the time of entry (may differ in customized portfolios depending on mandate)

Key Differentiators

Focus on Smaller Businesses – We strive to look for emerging businesses which has the Management bandwidth, Product positioning, Balance sheet discipline and Growth opportunities to take the business into next league.

Team has to be a Learning Machine – Our team is extremely passionate about equities and are continuously looking to keep adding value to our company and industry knowledge - collectively we listen to 300-400 conference calls/ company interactions and meet dealers/ competitors on a regular basis.

Risk is reality , Return is Vanity- Our focus is always on risks first as we believe that business environment is extremely dynamic and challenging – we believe focus on risks helps us to be patient and calm in downturns.

Invest your own money - We do not want to be mere portfolio managers but encourage our team to be investors in the same portfolio stocks/ Portfolios, team has to own up its ideas and what better way then to have your own skin in the game.

Concentration on High conviction businesses – As the investment thesis plays out we do not shy away on taking higher concentration on our conviction ideas.

Own up the mistakes- World is not perfect so are we. We do not want to shy away from our mistakes, the key to own up and correct it as quickly as possible and avoid repeating.

Investment Philosophy in action – A glimpse

Angel One Limited (Mkt Cap Rs. 216.37 bn)

- Angel One is probably the only old school broker (2nd largest retail broker in terms of ADTO) which has successfully adapted to the changing landscape of the brokerage industry by transforming from a traditional broker into a full fledged profitable discount broker.
- Angel is proving to be a superior retail broking franchise due to the following: 1) Better-than- industry gross client acquisition (25% market share in retail ADTO), 2) Higher activation rate both on o/s (32% vs. /Industry's 30%) and incremental (industry has turned negative on incremental activation rate while it is positive for Angel), 3) Sharp rise in overall ADTO market share (4x since FY20 and probably the 2nd largest after Zerodha) & NSE active clients (3rd largest with ~13% market share). The Company's decision to adopt a "Super App" model is ahead of its peers and may pay off in the long run w.r.t. client engagement and revenue diversification.
- Post the transformation of its business model, the F&O segment is growing rapidly and has jumped ~46x in the last three years. It is introducing its flat fee product, where the company charges Rs. 20 for every trade, leading to further client addition. The transformation is an ambition for the Company from a broking house to a 'One-Stop Solution' platform for every financial need – like mutual funds, insurance, and other products. They are also coming up with their own Mutual fund product (Awaiting AMC License).

Growth drivers

- Over the last few years, the company has transformed itself from a physical branch-led model to a tech savvy digital player. At the same time, the company continuously outpaces the industry by expanding its market share from 3.3% in FY18 to 13.8% in Q1FY24 and increasing the client base from 1.1Mn in FY18 to 15.06 Mn in June'23
- Since the rise of a discount broker, the share of lower-tier cities in client addition and trading volume has been rising steadily. AOL has been at the forefront of acquiring most of its clients from Tier II and beyond cities.
- Over the years, the Indian broking industry has become more concentrated. Top players in the industry have constantly gained market share, the top 5 players used to command 38% market share in 2016, which has increased to 62% market share in 2022, and the top 10 players command 80% market share in 2022 compared to 57% in 2016.
- Demat account penetration as a proportion of the total population has also surged consistently.

Investment Philosophy in action – A glimpse

CG Power & Industrial Solutions (Mkt Cap Rs. 596.85 bn)

- CG Power is a leading player in industrial and traction AC/DC motors, switchgears, transformers, electrical drives and other industrial and power equipment. They are also into solutions and turnkey services. The Group has an unexecuted business order book of over INR 2815cr as of December 2020. The company has distribution network of more than 820 dealers. CG power is consistently in top 4-5 players in motors, railways and power T&D.
- CG power has been recently taken over by Tube Investments of India. Tube Investments is a turnaround specialist as evident from recent turnarounds in Chola fin, Shanti Gears, Godavari Fertilizers, EID Parry and Tube inv itself. In Tube inv they rationalized costs and working capital, increased margins, focused on new products and cut debt aggressively leading to strong value creation. Tube has set a revenue and PBT margin target of Rs 5000 cr and 10% respectively in next 3 years. They also target to become debt free by that time. We believe that Tube Investment will successfully turn around CG power over next 3-4 years. Tube will own 58.5% in CG power.
- CG power has cut costs in last few quarters, negotiated with bankers and creditors for better terms. The debt o/s has been restructured from nearly Rs. 2100 crores to around Rs. 1000 crores Many of the operational team members in the Company are still there while most clients are also still retained which is good for future. Q3FY21 marked a strong growth in revenue of 26% and turned PBT positive from losses led by restructuring efforts. Mr. Vellayan, MD of Tube Investments has strong credentials and capabilities to turnaround businesses. CG power now has a renewed and capable Board which will help company to reach its vision.

Growth drivers

- LT motors market size if Rs. 38 Bn in India, of which CG's market share is 36%, good penetration opportunity. IGBT Propulsion System market size if Rs. 15.5 Bn and CG's market share in 17% ranked at 5th in the industry. Propulsion electronics market size is Rs. 9 Bn, CG's ranked at the top with market share of 66% Market size for switchgears in India is Rs. 54 Bn; good market penetration opportunity
- First company to develop systems for 800 kW UHV transformer and condenser bushings to Power grid Corp in FY20. CG power can build on this competency.
- New product developments: Distribution and power transmission monitoring system to reduce AT&D losses; super premium efficient motors will give much better efficiency that earlier
- Railways, Electric vehicles, infrastructure and overall capex cycle in India to benefit the company

CG Power - Key Parameters (In Cr)

Investment Philosophy in action – A glimpse

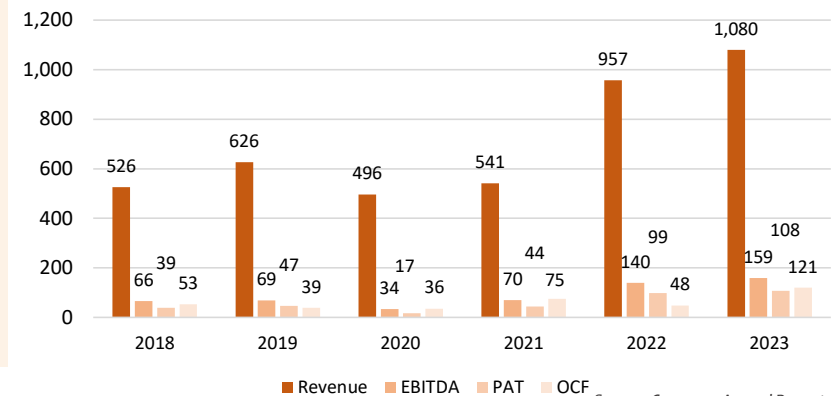

Apcotex Industries (Mkt Cap Rs. 25.12 bn)

- Apcotex Industries Ltd (Apcotex) is a leading producer of Synthetic Rubber and Synthetic Latex in India. The company has one of the broadest range of Emulsion Polymers available in the market today. The various grades of Synthetic Rubber find application in products such as Automotive Components, Hoses, Gaskets, Rice De-husking Rollers, Printing and Industrial Rollers, Friction Materials, Belting and Footwear.
- Apcotex was a division of Asian Paints which was later spun off as a separate entity and Mr. Atul Choksey started heading it. Currently Abhiraj Choksey is the MD of the Company. Atul Choksey is Chemical Engineer from Illinois Institute of Technology, Chicago, USA. Abhiraj Choksey is Bachelor of Science in Economics from Wharton Business School and Bachelor of Science in Engineering from the Engineering School, both of University of Pennsylvania in U.S.A.
- Last year was tough for Apcotex as South Korea and Japan started dumping NBR which led to substantially lower prices. This was a result of low demand globally and imposition of anti dumping duty by China on imports. Now the situation has normalized substantially. 80% of NBR is imported in India, thus Government policies on Atma Nirbhar Bharat and Make in India will help Apcotex going forward immensely. Apcotex is market leader in NBR with 25% market share in India and key competition is from imports while in Latex it has a market share of 40-60% with key competitors being MNC players

Growth drivers

- Capex done over last 1-2 years is over which was spent on some debottlenecking projects and cost reduction initiatives. The effects of the capex is visible now
- Around Rs 110 cr will be spent now on XNBR Latex for Gloves in Valia, 45000-50000 tons capacity (~3% of global capacity). Gloves project will give 3x asset turns and will start from FY23 and will be a key growth driver.
- Further debottlenecking and brownfield projects of Rs 30-40 cr will get completed in next few months leading to further growth in revenues and profits.
- Management is still considering NBR expansion project however the final call will be taken in a couple of quarters
- New products, large import substitution opportunity, multi-billion USD market opportunity in XNBR

Apcotex Industries - Key Parameters (In Cr)

Nov 22

Nearly 70 per cent of the 254 portfolio management services (PMS) schemes have beaten the Nifty50 index in the past year. The schemes returned 26.6 per cent, on average, compared to 18.8 per cent given by the benchmark.

Green Portfolio's Super 30 (36 per cent), Counter Cyclical Investment's Long Term Value (21 per cent), and Right Horizon's Minerva India Underserved (91 per cent) were the top performers, reveals the data from PMSBazaar.

None of the schemes gave negative returns over a one-year period.

Alder Capital's B2C Growth (0.14 per cent), Marcellus Investment Managers' Kings of Capital (0.2 per cent), and Fractal Capital Investments' Wealth Builder (5 per cent) were among the worst performers. Large-cap PMS schemes (average returns of 19.4 per cent), mid-cap schemes (30 per cent), and small-caps (40.5 per cent) outperformed their respective benchmark indices.

The top performers for March included Care PMS' Growth Plus Value (13.5 per cent), Right Horizon's Minerva India Underserved (11.4 per cent), and Abans Wealth and Investment Managers' Smart Beta Portfolio (10.5 per cent).

Returns were calculated on a time-weighted rate of return basis for the schemes under consideration.

The time-weighted rate of return eliminates the effects of inflows and withdrawals from the schemes to get a clearer sense of the fund manager's performance.

According to the Securities and Exchange Board of India data, PMS schemes managed ₹19.7 trillion under discretionary portfolio, ₹1.6 trillion under non-discretionary portfolio, and ₹2.3 trillion under advisory.
