REGENERATIVE AGRICULTURE: WHY DO WE CARE?

- We are committed to being a company that nourishes our farmers, our employees, our consumers, and our planet. Our passion is to go beyond sustainability to a method of farming and doing business that rebuilds, restores, and regenerates.
- Regenerative Agriculture is a holistic approach to farming that begins with restoring the health of our soils, and extends to improving the well-being of animals, farmers, ecosystems, and communities.
- Starting in 2021, we have been partnering with farming experts to transition our supply system to Regenerative Agriculture practices. Ultimately, the food we eat is only as healthy and wholesome as the soil in which it was grown.

BLACK RASPBERRY HIBISCUS MOOD BOOST SPARKLING BEVERAGE

About this product

When one of our founders lived in Mexico, she discovered that there was nothing more refreshing on a hot day than a cold glass of "Agua de Jamaica" (Hibiscus Tea). We've combined the deliciously sweet flavors of fresh raspberries with the deep tart flavors of the hibiscus flower to bring you a beverage that is both indulgent and refreshing. Mood boost is an indulgent sparkling tonic that combines 4 functional ingredients to naturally boost your mood. 5-HTP Promotes serotonin (the happy hormone) to lift your MOOD ASHWAGANDHA Reduces cortisol (the stress hormone) to help you UNWIND RHODIOLA ROSEA Promotes mental endurance to help you ACHIEVE GABA Soothes your nerves to help you RELAX.

SAVOY BEEF SOUP-8 PACK

About this product

Our AIP-friendly Savoy Beef Soup is inspired by Zora's nostalgic love for the Russian Borscht that she would eat as a child. The tart, vinegar-based broth calms the stomach while the Beets pack a nutritional punch and provide an enchanting, rosy color. The 100% Grass-Fed Beef, Savoy Cabbage, and Pumpkin balance the soup with warm, savory notes, making it the perfect brothy snack for any moment. Add 8-10 oz of boiling water in a bowl or mug and stir continuously to enjoy a savory, flavorful broth with real vegetables and free-range meat. Our Soups have a shelf life of 24 months in their sealed packaging after the date of manufacture.

VEGETABLE BEEF-VERMICELLI NOODLE SOUP IN A CUP

About this product

Our Vermicelli glass noodles, made from sweet potatoes, are convenient to make in their own included cup -- just add hot water. They are low glycemic index and compatible with

Paleo and other moderated-carbohydrate diets, but mostly you won't believe how delicious they are. Our noodle soups are all gluten free and grain free! Most ramen soups are made from either wheat noodles or rice noodles. We wanted noodles that would rehydrate without being cooked on a stove and are 100% gluten and grain free. We also

wanted to create something very new, yet very traditional. Vegetable Beef Soup: This soup is 100% AIP for the elimination stage. It's a very traditional hearty soup with freeze dried, 100% grass fed beef, champignon mushrooms, carrots and kale. Garlic, onion, parsley and thyme are the main spices used.

CHICKEN NOODLE-VERMICELLI NOODLE SOUP IN A CUP

About this product

Our Vermicelli glass noodles, made from sweet potatoes, are convenient to make in their own included cup -- just add hot water. They are low glycemic index and compatible with

Paleo and other moderated-carbohydrate diets, but mostly you won't believe how delicious they are.

Chicken Noodle Soup: This recipe uses ingredients used to make traditional chicken soup broth: celery, carrots, parsley, garlic, onion, and free-range chicken. We added a bit of nutritional yeast to increase the savory "umami" flavor, plus some turmeric for anti-inflammatory qualities. This soup will remind you of Mom's or Grandmom's homemade chicken noodle soup. It tastes fantastic for everyone, but is also 100% compatible with the elimination phase of an AIP diet.
