Encyclopedia of Political Button Books I, II, and III by Ted Hake

Long time collector and APIC member #292, Ted Hakes authored three indispensable reference books on political americana. These books show individual items photographed in black and white. Each item has been assigned a code number that is used by collectors for reference.

The first book *The Encyclopedia of Political Buttons 1896-1972* was originally issued in color, but is now only available in black and white.

In 2004, Hake created a revised price guide for all items in these books that is included when these books are purchased.

The three books are as follows:

Hake, Theodore. *The Encyclopedia of Political Buttons 1896-1972*. New York: Dafran House Publishers, 1974.

Hake, Theodore. *Political Buttons: Book II, 1920-1976*. York, Pennsylvania: Hake's Americana and Collectibles, 1977.

Hake, Theodore. *Political Buttons: Book III, 1789-1916*. York, Pennsylvania: Hake's Americana and Collectibles, 1978.

For more information about these books, go to www.hakes.com.
