## ABOUT US

Since 2004, we have been dedicated to sublimation and apparel that performs and protects. Founded by industry veterans who saw a need for great performance apparel engineered for today's digital sublimation platforms, we were first to offer Sublimation Certified shirt colors, award winning sustainable fabrics, and decorating tools that improve your productivity and enhance your customer's satisfaction.

Above all, we exist to support you. We answer your calls on sublimation. We offer advice and guidance. We deliver superior UPF50+ apparel to the trade that does not lose its UPF rating. Like a great day out in the sun shine; it just keeps getting better.

Vapor Apparel cares about the environment and the world we all share. We are focused on green manufacturing and Made in the Americas products. Vapor Apparel supports local sustainability initiatives like the SC Office of Ocean and Coastal Resource Management's "Adopt-A-Beach" program and other community projects.

Our products and innovations have been recognized by SGIA, Impressions Magazine, ASI, The SC Department of Commerce, and Counselor Magazine for award winning product development, print quality, economic growth and a commitment to the apparel industry. Vapor Apparel was named one of the top-25 fastest growing companies in Charleston in 2010, 2011, 2013, 2016 and 2017 as well as for state of South Carolina in 2010, 2013, 2016 and 2017.

# FABRIC FEATURES

## UPF 50+

Vapor Apparel offers fabrics enhanced with UPF50+ to protect your skin against harmful UV rays. The Solar Performance line is ideal for team sports, workforces, adventures, coastal sports, and any high endurance activity. Featuring UPF 50+ solar protection, the Solar Performance fabric is lightweight, comfortable, and built to last.

## M-Shield

Zinc based technology keeps fabrics fresh and defends against odor causing bacteria. In addition to providing enhanced performance during use, the odor resistant technology feature also helps to extend the useful life of the product.

## PURE-tech™ is Cooling & Wicking Innovation

PURE-tech™ Cool Wicking Technology keeps you cool and dry every time you wear it. It also adapts to hot or cold conditions. . PURE-tech™'s intelligent design delivers superior moisture-wicking features shown to improve the body's core performance, releasing heat when it's warm and trapping it in the cold. Our UV-certified fabrics dry rapidly and maximize absorbency. PURE-tech™ is permanent and proven to last, providing effective moisture-wicking capabilities throughout the life of the garment. Wash after wash, and game after game — PURE-tech™ stands up to the toughest athletic challenges, keeping you cooler and dryer longer than non-performance apparel.

## Sustainable Recycled Fibers

Repeve® Triblend  
Turning recycled bottles into the coolest of t-shirts. Made right here in the USA; this 50% REPEVE® Polyester, 37% Modal, 13% Cotton tee is surprisingly soft and supple for a sustainable shirt. Sustainable by design, our entire manufacturing supply chain for the RM100 is within 200 miles of our facility in Union, South Carolina.

## Sublimation Certified

Many of our garments are specifically engineered for the sublimation process. The Sublimation Certified emblem means the color will work with a wide swatch of the sublimation color gamut.

## Vapor Apparel Solar Line earns The Skin Cancer Foundation's Seal of Recommendation

The Skin Cancer Foundation grants its Seal of Recommendation to products that meet the Foundation's specific criteria for effective UV sun protection. The Seal program covers many categories of sun protection, each with its own specific standards. To earn the Seal of Recommendation, a manufacturer must provide scientific data showing that its product sufficiently and safely aids in the prevention of sun-induced damage to the skin. The data is reviewed by a volunteer committee of photobiologists - experts in the study of the interaction between ultraviolet radiation and the skin.

# NEW NON-SUBLIMATIBLE ITEMS

## Thermal Hoodie • H930 NEW

**LIGHT, SOFT + COMFORTABLE:** 100% performance poly fabric with a waffle texture. Feels super soft and moves with you but won't cling. Zinc-based technology fights odor to help you stay fresh.

**MULTI-USE + MULTI-SEASON:** This hoodie has built-in UPF 40+ sun-protection. Protective of UV rays as your top layer when it's warm; and in colder weather, it's an optional base layer that doesn't add too much bulk.

**DURABLE:** Sun, sweat, and saltwater meet your match - color won't fade from exposure to the elements. Sun-protection properties are only enhanced after several uses and washings.

**Fabric:** 100% performance poly fabric with a waffle texture  
**Sizes:** XS-3XL
