

Mechanic Operator

About the Role:

A key role within the organization, the Mechanic Operator, is responsible for keeping Wild's growing fleet of HD equipment in tip-top shape while also supporting the team from behind the controls when needed. If you're passionate about HD mechanics and would love to run the gear you maintain, this could be the role for you!

Key Responsibilities:

- Personal and team safety acting as a safety leader in all aspects of the role.
- Adhere to all safety programs and protocols required by Wild's health and safety management system, as well as that of Wild's associates, clients and customers
- Execute scheduled and break-in Maintenance on a variety of equipment including excavators, skid steers, generators, fleet trucks and trailers.
- Proficient and safe operation of heavy equipment, light vehicles, power tools, hand tools, and commercial truck/trailers.
- Follow and identify maintenance requirements on all vehicles, equipment, and tools
- Troubleshoot and Diagnose failures and deficiencies in the field or shop
- Manage equipment maintenance schedules and backlog via Wild's online work order management system.
- Identify opportunities for improvement, including maintenance equipment and processes.
- Manage and maintain shop maintenance facilities
- Support implementation of industry leading maintenance practices and strategies
- Assist Wild Developments with in-field execution and maintenance of various land development projects throughout our service region
- Haul and mobilize equipment and materials to and from job sites as required
- Work collaboratively with clients and maintain Wild's high customer service standards
- Participate in training and upskilling as required

Base Qualifications:

- Safety held as a core value
- Positive attitude and strong work ethic; self-managed with minimal or no supervision required
- Strong communication, problem-solving, and multi-tasking skills, with the ability to work professionally with others in a fast-paced environment
- Highly developed critical thinking and troubleshooting skills
- Team player, must be able to lead by example and provide input and support when needed
- Class 5 Driver's license and clean Driver's Abstract, with ability to provide own transportation to Coleman, Alberta
- Availability and flexibility to periodically work and stay away from home depending on project location and requirements
- Experience maintaining and operating forestry/excavation equipment
- Familiar and comfortable with construction and forestry tools (chainsaws, brush saws, grinders, Sawzalls ect.)
- Able to carry out duties in the field in all types of weather conditions
- Able to safely lift, carry, and push up to 60 lbs

Preferred Qualifications:

- Red Seal HD Mechanic Certification
- Previous experience in construction or related field
- Previous experience in forestry operations or related field
- Experience operating commercial vehicles and maintaining a logbook
- Able to work a staggered shift which may include Saturdays and/or Sundays

Location:

Based in Coleman Alberta, with various on-site work locations throughout the East Kootenays and Southwest Alberta

Job Type: Full-time, Part-time

Compensation:

Competitive rate based on the successful candidate's relevant experience, skills, and competencies

Opportunities & Benefits:

- Company vehicle and fuel card
- Flexible schedule that compliments your lifestyle
- Enhance and build your career with a young and exciting company
- Training and upskilling
- Benefits plan to be considered after 6 months probationary period

How to Apply:

- Email your resume with references to admin@wilddevelopments.ca
- Only successful candidates will be contacted for an interview
- Applications received for this opportunity may also be considered for future positions over the next six months

Application Deadline: November 15, 2024

Successful candidates must be willing to satisfy the following pre-employment requirements:

- Complete drug screening upon request
- Provide a government issue criminal record check and current 5-year drivers abstract.
- Provide three professional references
