

Mechanic Operator

About the Role:

A key role within the organization, the Mechanic Operator, is responsible for keeping Wild's growing fleet of HD equipment in tip-top shape while also supporting the team from behind the controls when needed. If you're passionate about HD mechanics and would love to run the gear you maintain, this could be the role for you!

Key Responsibilities:

- Personal and team safety acting as a safety leader in all aspects of the role.
- Adhere to all safety programs and protocols required by Wild's health and safety management system, as well as that of Wild's associates, clients and customers
- Execute scheduled and break-in maintenance on a variety of equipment including excavators, skid steers, generators, facilities, fleet trucks and trailers.
- Proficient and safe operation of heavy equipment, light vehicles, power tools, hand tools, and commercial truck/trailers.
- Follow and identify maintenance requirements on all vehicles, equipment, and tools
- Troubleshoot and Diagnose failures and deficiencies in the field or shop
- Manage equipment maintenance schedules and backlog via Wild's online work order management system.
- Identify opportunities for improvement, including maintenance equipment and processes.
- Assist Wild Developments with in-field execution and maintenance of various land development projects throughout our service region
- Haul and mobilize equipment and materials to and from job sites as required
- Work collaboratively with clients and maintain Wild's high customer service standards
- Participate in training and upskilling as required

Base Qualifications:

- Safety is held as a core value, familiar with industry standard safety protocols.
- A strong work ethic and a helpful can-do attitude; someone who notices what needs doing and takes the initiative.
- Self-managed with minimal or no supervision required.
- Highly organized with strong time management, communication and multi-tasking skills.
- Highly developed problem solving and critical thinking skills, able to provide and implement innovative ideas related to the role.
- Team player, able to lead by example and provide input and support when needed.
- Class 5 Driver's license and clean Driver's Abstract. Able to supply their own daily transportation to Wild's shop in the Crowsnest Pass, AB.
- Available to periodically work and stay away from home depending on project location and requirements
- Experienced in maintaining and operating newer HD construction and/or forestry equipment
- Familiar and comfortable with construction and forestry tools (chainsaws, brush saws, grinders, Sawzalls ect.)

J O B O P P O R T U N I T Y

- Able to carry out duties in the field in all types of weather conditions
- Familiar with computer-based diagnostics tools and work order processes
- Ability to lift, carry and push up to 60 lbs

Preferred Qualifications:

- Red Seal HD Mechanic Certification
- Experience operating commercial vehicles and maintaining a logbook
- Able to work a staggered shift which may include Saturdays and/or Sundays
- Local industry knowledge and experience.
- Familiar with Windows based computer software including MS Word, Excell, and Outlook.
- Experienced using mobile apps for communication, daily documentation, work records etc.

Location:

Head Office, Crowsnest Pass, AB.

Job Type: Full-time, Part-time

Compensation:

Highly competitive rate based on the successful candidate's relevant experience, skills, and competencies.

Opportunities & Benefits:

- Company vehicle and fuel card
- Flexible schedule that compliments your lifestyle
- Enhance and build your career with a young and exciting company
- Training and upskilling
- Benefits plan to be considered after 6-month probationary period

How to Apply:

- Download and complete our application form from www.wilddevelopments.ca/careers
- Submit your completed application along with your resume and references at www.wilddevelopments.ca/careers
- Successful candidates will be contacted for further evaluation

Application Deadline: May 15, 2025
