RE: Noise Ordinance Information

Dear Homeowner,

Because noise tolerance is subject to individual opinion, preference, hearing ability and other factors, we rely upon Holladay City noise ordinance as our guide.

Please review the general summary below for information regarding this sensitive issue as applicable to association living at Aix La Chapelle:

- The noise regulation prohibits loud noise at night between the hours of 10:00 p.m. and 8:00 a.m. The regulation also sets limits for extremely loud noise during daytime hours.
- Certain activities and situations are exempt from the noise regulation, such as government-operated snow removal activities and construction work that receives a temporary noise permit from the health department.
- For residents it is unlawful for any person to wilfully make or continue, or cause to be made continued loud, unreasonable, unnecessary or unusual noise that disturbs the health or safety of a reasonable person of normal sensitivity within any receiving property. This is in alignment with the association governing documents.
- No person shall vocalize (shouting, loud conversations) at levels which amount to a plainly audible noise within 100' for a duration of longer than one minute.
- Personal music and sound amplification shall not emit plainly audible noise between the hours of 10:00 pm and 8:00 am.
- Motor vehicle idling mode for a period of 5 minutes or longer or any period of time while the vehicle is unattended.
- To report loud/disruptive ongoing noise please contact your local police through a non-emergency number and then provide your police report case number to the management email- manager@aixlacondo.com.

Holladay Dispatch 801.743.7000
To request to speak with a officer

Best Regards,
