

## **West Cheshire Warriors Netball Club**

### **Safeguarding Policy**

‘Safeguarding’ is an overarching term that is used to describe not only how we protect young people from harm, but also how we promote their wellbeing. Safeguarding is everyone’s concern and responsibility and this is no less the case in netball.

Here you will find information about how we keep our members safe and well.

West Cheshire Warriors Netball Club Club is committed to providing an environment where ALL its members and volunteers feel safe and where their wellbeing is actively promoted. We take pride in creating a climate where netball is both safe and enjoyable.

We support and adopt the safeguarding mission statement of England netball that ‘we consider the safety and wellbeing of our young people as central to our core values’.

At West Cheshire Warriors Netball Club, we also pledge to treat our members and volunteers with respect and provide them with equal access to opportunities. We recognise the importance of being inclusive and engaging for all members of the community.

We, like other clubs, commit to and have adopted England Netball Safeguarding and Equality Policies which can be found [here](#)
