

George's Grocery Grab

George and his dad loved grocery shopping together.

It was a scavenger hunt to find every item on their grocery list.

"We need five apples" said George's dad.

George was the best apple picker. He did not like them soft, he did not like them damaged.

George took five apples and put them in the cart.

"Next we need 3 bananas" said George's dad.

George looked at all the bananas. They were in bunches of two, three, and four!

Carefully, George looked for 3 bananas together. "I found it!"

What section of the grocery store are they in?

Next on their list was bread.

He saw bagels, english muffins, white, and brown bread!

"We must not forget cheese!" Cheese and crackers were George's favourite snack.

"Oh no!" said George. There was no cheese left! What could he put on his crackers now?

George went to school the next day with a sandwich for lunch and crackers for snack.

"I am sad that I do not have cheese for my crackers" George told his friend Emily.

"Try this" Emily took a spoon and scooped something on his cracker.

It was yummy!

"That is hummus" Emily said.

George had something new to put on the grocery list!

What else might George and his Dad see in the dairy section?

If you went to the grocery store, what would you put in your cart?
