About Dawn Industries

Saving water system professionals time and money is our mission. Over the past 30 years, Dawn Industries, Inc. has introduced some of the most innovative and successful water system and replacement products on the market. The Company's team of seasoned engineers, sales and office staff continue to work closely with professionals from multiple industries in developing new and innovative products.

What separates Dawn Industries is our commitment to pleasing our customer base. We're a business that treats our customers like family, with respect, courtesy and warmth. We recognize that you are our lifeblood, everything we do is focused on your satisfaction.

We appreciate your business and look forward to serving you for many years to come.

Spring Action and Original KwikCut™

These multi-purpose cutters are designed to make quick work of Polyethylene pipe, thin wall PVC, hose, tubing and most other non-metal items. Our blades are manufactured in our Colorado facility using a proprietary blade making system from the longest lasting, highest quality metal. This ensures exceptional quality control throughout the production process and creates a blade that is sharper and holds its edge longer for more clean, precise cuts. Together with the tough fiberglass reinforced nylon handles KwikCut is the highest quality cutter on the market at any price.

100 and 135 series models are available with orange or black handles as well as stainless steel or PTFE coated blades. SS200 and SL200 are only available with black handles and stainless blades.

Nut Driver

Part Number: **ND375** Made in USA

No Clamps, No Tools, No Hassles

In repeated high pressure testing (up to 400 psi) the KwikConnect never leaked or failed. In every test, the pipe burst without one KwikConnect failure. KwikConnects are designed for use wherever standard, ASTM D 2609, insert fittings are used.*

* Designed for use on 80, 100 and 160 psi pipe which meets ASTM D 2239 pressure rated polyethylene pipe standard as well as Ag drip pipe.

KwikConnect Features Include:

- Installs in seconds
- No clamps needed
- Fast, easy and secure
- Reduces labor
- Saves dollars
- Dependable and reliable

KwikConnect is made from the finest engineered resins available on the market today.

Expanding lock ring provides superior holding power by biting into the pipe and expanding to grip securely in high pressure or hammer situations.

PTFE coated Buna O-rings for ease of installation and long sealing life.

KwikRepair™ makes in-line installation or repair of PVC lines faster, easier, stronger and more cost efficient with just 1 fitting. The KwikRepair sleeves slide onto the pipe, once primer and solvent is applied to the end of the fitting and end of the pipe being repaired, eliminating bending or flexing of the pipe.

- Do the job with just one fitting
- Permanent solvent weld seal
- Effective for limited space applications
- No Thrust Blocking or Staking needed
