

CURRICULUM VITAE

Brent R. Gibson, MD, MPH, CCHP-P
brentgibson@avocetllc.com | 312.905.5736 m
www.avocetllc.com

PROFESSIONAL SUMMARY

Dr. Brent Gibson, a board-certified physician executive, is the founding principal of Avocet Enterprises, a health services consulting firm specializing in improving healthcare delivery for vulnerable populations, particularly those in correctional environments like jails and prisons. As an Army Veteran with over a dozen years of senior leadership experience in both not-for-profit and for-profit sectors, 15 years of public health and health leadership experience, and 20 years as a licensed physician, Dr. Gibson brings a wealth of expertise to the healthcare industry. He has published extensively, with 110 professional publications and presentations.

In his prior role at the National Commission for Correctional Health Care (NCCHC), Dr. Gibson served as both Chief Health Officer and Managing Director of NCCHC Resources, Inc. He was responsible for strategic oversight, advising the CEO and the Board of Directors, and leading the development of clinical standards that shaped correctional healthcare nationwide. His leadership at NCCHC Resources, Inc. resulted in an innovative, continuous quality improvement initiative that enhanced healthcare programs across correctional facilities. Under his direction, NCCHC Resources grew from a startup with \$65k in revenue in 2018 to a major subsidiary with projected revenues in 2021 (his last year), approaching \$2.5M. This was within a \$6M small non-profit.

Dr. Gibson's career includes significant military service, where he was recognized with the United States Meritorious Services Medal twice. As a General Medical Officer and Occupational Medicine Specialist, he served in various academic and garrison roles, including as the installation medical authority at a major chemical weapons depot. His public health background is reinforced by a graduate degree and residency completed during his active-duty service.

Beyond his professional career, Dr. Gibson is dedicated to giving back to the community. He serves on the Advisory Board for Social Profit Corrections (SPC), the nation's first secure nonprofit full-service corrections corporation, where his medical expertise guides the development of safe and innovative correctional practices. Additionally, Dr. Gibson is a Grand Challenges Corporate Partner with the Dyson School of Applied Economics and Management, SC Johnson College of Business at Cornell University, connecting students with real-world project work that fosters a bridge between academia and industry. His commitment to volunteerism and community engagement reflects his broader vision for a healthcare system that prioritizes compassion, innovation, and continuous improvement.

PROFESSIONAL EXPERIENCE

Founding Principal
Avocet Enterprises, LLC
Chicago, Illinois
January 2023 – present

- Founded and currently leads a healthcare delivery consulting firm specializing in services for vulnerable and socially complex populations, including incarcerated, homeless, rural, and urban core residents, as well as individuals with mental health challenges.
- Designs and implements technical assistance programs integrating clinical expertise, data analytics, and compassionate care, enhancing healthcare delivery systems and improving patient outcomes.
- Provides expert witness services, professional coaching, and public speaking to educate and collaborate with healthcare professionals and stakeholders on effective care strategies for high-risk populations.
- Drives strategic initiatives that promote sustainable health improvements, ensuring all projects adhere to the highest standards of integrity, excellence, and compassion.

Chief Medical Officer

Social Purpose Corrections

Phoenix, Arizona

August 2024 – present

- Provides visionary leadership and strategic direction for the medical and healthcare services within Social Purpose Corrections, ensuring alignment with the organization’s mission and goals to enhance the quality and efficiency of healthcare delivery in correctional facilities.
- Supervises and mentors clinical staff, including physicians, nurses, and allied health professionals, to ensure the delivery of high-quality medical care. This includes overseeing recruitment, training, performance evaluation, and professional development to maintain a skilled and motivated healthcare team.
- Oversees all clinical operations and healthcare programs, implementing continuous quality improvement initiatives to elevate healthcare standards, ensure compliance with regulatory requirements, and improve patient outcomes in correctional settings.
- Collaborates with internal and external stakeholders, including correctional staff, healthcare providers, government agencies, and community organizations, to promote integrated healthcare solutions, drive innovation, and advocate for policies that support the health needs of vulnerable populations within the correctional system.

Chief Population Health Officer

CoreCivic

Brentwood, Tennessee

January 2022 – December 2022

- Spearheaded the strategic direction and coordination of population health, care management, and outcome metrics for value-based care delivery and contractual arrangements as a key member of the senior management team.
- Championed the transition of health services to innovative value-based healthcare models, ensuring sustainable and effective execution of population health strategies.

- Led the development of comprehensive care management programs, including complex case management, disease management, and wellness initiatives, significantly enhancing patient-centered care.
- Collaborated closely with the CEO of Correctional Medical Associates to implement performance monitoring tools and solutions, focusing on key population health indicators to improve patient outcomes, reduce costs, and increase provider and patient satisfaction.

Managing Director

NCCHC Resources, Inc. (NRI), National Commission on Correctional Health Care

Chicago, Illinois

April 2019 – January 2022

- Initiated and led NCCHC Resources, focusing on the expansion of consulting services to enhance healthcare in jails, prisons, and juvenile detention facilities.
- Collaborated with the NCCHC CEO to transform health services toward value-based care models, integrating clinical practices with correctional healthcare needs.
- Developed the Correctional Health Care Management Office, enhancing localized healthcare solutions and strategic support for correctional facilities.
- Directed a comprehensive portfolio of services including project management, strategic planning, and financial oversight, significantly advancing the organization’s mission and financial stability.
- Acted as a principal public speaker and representative, establishing NRI as a leader in correctional healthcare.

Chief Health Officer

National Commission on Correctional Health Care (NCCHC)

Chicago, Illinois

January 2016 – January 2022

- Provided strategic clinical guidance as part of the executive team, advising on business strategy and clinical operations across the organization.
- Oversaw critical functions including accreditation, certification, education, and publications, enhancing NCCHC's industry standards and practices.
- Engaged extensively with national organizations and committees, influencing policy and advancing correctional healthcare standards nationwide.
- Facilitated key educational initiatives and represented NCCHC in high-stake national meetings, promoting interdisciplinary partnerships and public health strategies.

Vice President, Operations

National Commission on Correctional Health Care (NCCHC)

Chicago, Illinois

October 2012 – January 2016

- Spearheaded operational enhancements and managed the revision of health service standards for jails, prisons, and other correctional facilities.
- Led the organization’s premier correctional healthcare conference to record attendance and educational achievements.

- Managed a significant federal grant and implemented critical system upgrades, improving operational efficiency and compliance.
- Served as executive liaison for key committees, driving policy and standards improvements that shaped national correctional health practices.

Clinical Director

United States Medical Center for Federal Prisoners, Federal Bureau of Prisons

Springfield, Missouri

June 2011 – October 2012

- Promoted to Clinical Director, a key leadership role within the Bureau, overseeing strategic health service objectives in alignment with the CEO's vision and national health services leadership.
- Managed compliance with Federal Bureau of Prisons, US Department of Justice, American Correctional Association, and Joint Commission policies and procedures.
- Supervised a diverse team of medical professionals, including physicians, mid-level providers, and dental staff, ensuring high standards of healthcare delivery across the institution.
- Administered health care components of an \$80M budget for healthcare services, optimizing resource utilization and overseeing care for over 1,100 complex medical and custodial cases.
- Established and maintained collaborative relationships with local health systems, law enforcement, and business leaders, enhancing community integration and support.
- Led multiple administrative committees such as Bed Utilization, Utilization Review, and Mortality Review, and managed contracts and consultations with specialty medical providers.

Medical Officer

February 2011 – June 2011

- Provided comprehensive medical services at the Bureau's primary Medical Referral Center, specializing in Long Term Care, Mental Health, and Ambulatory Care units.
- Collaborated with institution staff and external consultants in various clinical areas, contributing to a multidisciplinary approach to inmate healthcare.
- Participated in the development and delivery of in-service health education, training mid-level practitioners, nursing staff, and other healthcare professionals.
- Upheld institutional security responsibilities as an integral member of the correctional environment, ensuring safe and effective healthcare delivery.

Vice President of Medical Affairs

Atlas Research, LLC

Washington, DC

October 2008 – February 2011

Served as a medical executive in a start-up management-consulting firm with an emphasis on health services research, policy, and planning. Provided strategic insight into the healthcare delivery challenges facing both the public and private sectors and, as a senior physician leader in

the company, gave a balanced clinical and executive perspective to clients. Provided subject matter expertise and management to a variety of projects to include support for major initiatives such as the Veterans Health Education and Outreach program (to include serving as principal investigator on a primary cardiovascular prevention pilot study) and the Policy and Planning Group for the Department of Veterans Affairs Office of Rural Health. In this capacity has supported multiple policies, programs, and studies focused on preventive medicine and population health for the \$26 million program.

Also served as the executive sponsor and technical lead for an innovative project for the US Dept. of Health and Human Services where his team designed a *de novo* real-time data integration platform which gathers, analyzes, transforms, and normalizes data from a variety of distinct hospital Emergency Department Information Systems. In addition, serves as a physician subject matter expert for a variety of the firm's projects to include those focused on clinician training, medication management, women's health, and physical rehabilitation services. Assumed increasing responsibilities for corporate governance and business development and has initiated numerous process improvement initiatives to include developing "tiger teams" for target client agencies and vertical markets. He has codified the approach to bid and proposal writing and spearheaded the firm's first Joint Venture.

Occupational Medicine Physician

St. John's Health System

Springfield, MO

June 2008 – September 2008

Served as an occupational medicine physician at a freestanding clinic within a large hospital-based health system. The clinic served the working population of a multi-county area with a population of approximately 400,000. A broad variety of industries were served including automotive, transportation, healthcare, education, rubber products, food and beverage, entertainment, chemical, and local government. Also served as the medical director of St. John's Corporate Health in the city of Springfield and the immediately surrounding area.

In this capacity provided medical leadership to preventive medicine services provided to local businesses of all sizes. Specific duties included strategic planning; team building; liaison activities; research, analysis, and writing for specific initiatives; medical surveillance; and marketing. Accomplishments include support for development of an occupational and preventive medicine service line concept, critical appraisal of the local health status group report (health risk appraisal output), and conceptualization of local occupational medicine dashboard metrics.

United States Army

July 2001-June 2008

Occupational Medicine Instructor/Writer

U.S. Army Medical Department Center and School

San Antonio, TX

June 2006-June 2008

Provided instruction and curriculum development for Occupational Medicine and Public Health for the Academy of Health Sciences, Army Medical Department Center and School. Developed course work, provided classroom instruction, and evaluated U.S. and allied foreign military students on all aspects of Public Health and Preventive Medicine in both traditional and field environments. Clinical duties were performed at the Brooke Army Medical Center (BAMC) and included employment-related examinations such as fitness for duty, medical surveillance, pre-placement, and exit examinations. Served as the Chief of the Occupational Medicine Service (Acting) at BAMC, a large, tertiary care medical center—one of only eight in the U.S. Army at the time—and as regional consultant in Occupational Medicine. In this capacity supervised two other physicians, maintained a focused clinical practice, and provided expert consultative services to a large network of occupational medicine clinics.

Chief Medical Officer U.S. Army, Pine Bluff Arsenal Pine Bluff, AR June 2002-June 2004

Served as the Installation Medical Authority for a large industrial complex with operations emphasizing safe and secure storage of weapons of mass destruction as well as conventional munitions manufacturing and storage. Served as the installation's only physician and was responsible for all clinical and administrative functions related to general practice and occupational medicine. Provided direct oversight of all medical operations with specific areas of responsibility including medical planning and training, clinical care, emergency medical response for a variety of complex industrial hazards, and determination of medical reliability of workers in critical positions.

Clinical duties included supervision of a physician assistant, a registered nurse, and several technicians and paramedics. Day to day duties included diagnosis and treatment of non-complicated illness and injury of the respiratory, gastrointestinal, musculoskeletal, cardiovascular, and neurological systems as well as for acute minor trauma such as that caused by slips, trips, falls, chemical and thermal burns, and other industrial causes. Occasional diagnosis and treatment of gynecologic and pediatric patients. Was also responsible for routine interpretation of laboratory results. Other clinical duties included occupational employment examinations (e.g. fitness for duty).

VOLUNTEER ACTIVITIES

**Grand Challenges Corporate Partner
Dyson School of Applied Economics and Management
SC Johnson College of Business
Cornell University
January 2024 - present**

In the Grand Challenges Corporate Partner program at the Dyson School of Applied Economics and Management, SC Johnson College of Business, Cornell University, I actively participate in connecting students with real-world project work. My role involves bridging the gap between academic learning and practical experience, ensuring that students gain valuable insights into the complexities of business and project management. By facilitating collaborations between academia and industry, I contribute to a dynamic learning environment where students can apply theoretical knowledge to actual business challenges. This engagement not only enriches the students' academic journey but also fosters innovative solutions to real-world problems.

OTHER PROFESSIONAL EXPERIENCE

Adjunct Assistant Professor

Georgetown University School of Nursing and Health Studies

Washington, DC

October 2008 – September 2010

Performed a range of academic activities to include graduate level instruction, curriculum development, and research. Provided students and peers with an active physician executive's perspective on the modern US health care system. Designed and delivered curricula, lectures, and projects based on experience working in both public and private sector clinical and administrative positions. In addition, brought very specialized experience and expertise in regulatory compliance of military medical support programs.

Associate Medical Director

Becker and Associates Consulting

Washington, DC

January 2006 – July 2006

Served as the Associate Medical Director for a professional management consulting firm. Contributed clinical and epidemiology expertise to client assignments for FDA regulated products and on reimbursement matters. Supported project work pertaining to medical surveillance programs and industrial hygiene.

PROFESSIONAL CERTIFICATION

Medical Licensure

Unrestricted Medical License: Missouri

Retired Medical License: California

Inactive Medical License: Indiana

American Board of Preventive Medicine – Occupational Medicine

2007-2027

**Certified Correctional Health Care Professional – Physician
2013-present**

**American Society of Association Executives – Certified Association Executive (CAE)
2019-2022**

PROFESSIONAL TRAINING

**Occupational and Environmental Medicine Residency, National Capital Consortium (*Walter Reed Army Medical Center, National Naval Medical Center, Malcolm Grow United States Air Force Medical Center*), Washington, DC
2004-2006**

**Transitional Year Internship, Madigan Army Medical Center,
Tacoma, WA
2001-2002**

EDUCATION

**2005 M.P.H., Uniformed Services University of the Health Sciences
Bethesda, MD**

Health Services Administration Track (Specific training in health systems, health care law, health care financial management, qualitative assessment/improvement in health care, and decision making in health services.)

**2001 M.D., Medical College of Georgia, School of Medicine
Augusta, GA**

**1997 A.B., Cornell University, College of Arts and Sciences
Ithaca, NY**

Distinction in all subjects

Major in Biological Science

South Asian Studies Concentration

SELECTED HONORS AND RECOGNITIONS

Fellow of the American College of Preventive Medicine

United States Meritorious Service Medal (two awards)

United States Army Commendation Medal (two awards)

2007 AMA Foundation Leadership Award

Delta Omega National Public Health Honor Society

Phi Beta Kappa

Arkansas Capitol Citation

Arkansas Traveler Award

Raymond P. Alquist Award for Pharmacology and Toxicology

Elmer Markham Johnson Prize for English writing
Cornell University Dean's List
Golden Key National Honor Society
Phi Kappa Phi National Honor Society

PREVIOUS PROFESSIONAL AFFILIATIONS

American Society of Association Executives
American College of Preventive Medicine
American Medical Association
Association Forum of Chicagoland

PREVIOUS ACADEMIC APPOINTMENTS

Adjunct Assistant Professor, Georgetown University, School of Nursing & Health Studies, 2008-2010
Teaching Fellow, Uniformed Services University of the Health Science, Department of Preventive Medicine and Biometrics, 2005-2008

OTHER CERTIFICATIONS, EXPERIENCE, AND TRAINING

Specialized Training

Advanced Cardiac Life Support
Federal Bureau of Prisons Principles of Leadership
Federal Bureau of Prisons Introduction to Correctional Techniques, Phases I and II
Medical Effects of Ionizing Radiation
Medical Management of Chemical and Biological Casualties
Toxic Chemical Training Course for Medical Support Personnel
Army Medical Department Officer Basic Course
Combat Casualty Care Course
Family Advocacy Staff Training

Committee Assignment History and Other Administrative Experience

Invited Member, Practitioner Panel (Leaders in Justice Settings) - Joint Community Opioid Innovation Network
Co-liaison, NCCNC Policy and Research Committee
Chair, Utilization Review Committee, United States Medical Center for Federal Prisoners
Department of Defense Liaison Member of Toxic Substances Control Act Interagency Testing Committee
Chair, Case Review Committee, Pine Bluff Arsenal
Secretary, Association of Preventive Medicine Residents
Chief Resident, National Capital Consortium, Occupational and Environmental Medicine Residency
Medical student ethics small group facilitator, School of Medicine, Uniformed Services University of the Health Sciences

Transitional Year representative to the Institutional Coordination Committee, Madigan Army Medical Center
