

Shape the future through great learning experiences

Welcome to Newton!

Experiential education with positive learning outcomes for students and teachers in real-world STEM subjects!

The Newton partnership network of municipalities, Newton Rooms, and Newton teachers gives students a positive experience with engagement, practical work, and a mastery of STEM subjects through project-based learning.

Students who visit the Newton Room will be challenged by practical tasks in unique STEM curriculum modules, based on real world concepts. In the Newton Room, they have access to exciting and state-of-the-art equipment, highly trained teachers, and time to explore, discuss, reflect, and collaborate together.

- **Locally-owned by school systems & municipalities**
- **Equal student access to experiential STEM learning**
- **Improved STEM teacher competency through training and ongoing support**
- **Customizable solutions for corporate and public partnerships**
