FAQ'S

How much space do you need?

For larger events, we need a space of 7m x 4m. For smaller events, we can be flexible, but the minimum size required is 4m x 4m.

Do you have Public Liability Insurance?

Absolutely, we can provide a copy of the certificate upon request.

Who can get involved?

Even though we use power tools, our activity is designed to be very family-friendly, and we frequently see two-year-olds getting involved in the fun! We kindly request parental supervision for children under 12 years old, but there is no upper age restriction.

Why is the activity eco-friendly?

Our wood is rescued from the waste stream, assisting companies, small businesses, and individuals in recycling off-cuts and unneeded timber. This initiative also introduces children to the idea of upcycling, empowering them at a young age to choose sustainable options.

Is the activity safe?

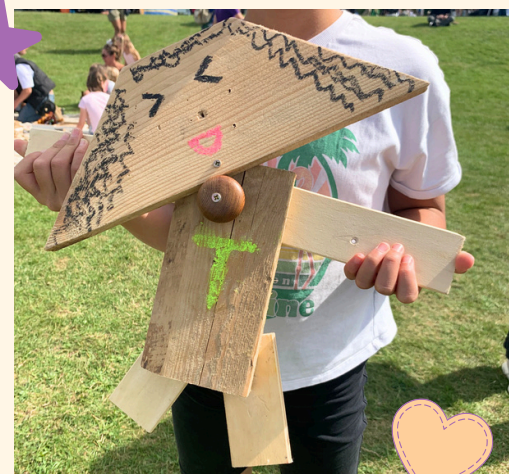

Since our inception, we have engaged over 4,000 children through various indoor and outdoor events. Throughout this journey, we have refined our methods to ensure a fun, exciting, yet safe and practical experience. Each participant receives a leaning block to drill on, along with safety gloves (goggles and ear defenders are also available). The drill bits are intentionally chosen to be less sharp, and the tools operate on a 'low power setting'. Sandpaper is readily available to smooth out any rough edges, and we have floor clamps at the ready for those challenging pieces. Our team is always present to assist and provide helpful guidance along with a demonstration for participants upon arrival.

What can be made during your activities?

Our team enjoys capturing photos and documenting the incredible creations that emerge from our sessions; we've amassed an archive of over 500 unique items! To inspire both children and parents during our Imagination Station sessions, we've developed example sheets featuring a variety of designs and ideas. Some of these examples include: Treasure Box, Fairy Swing, Rocket, Train, Helicopter, Barbie Sofa, Plane, Jewellery Holder, Dinosaur, Pencil Pot, Mexican Scene, Robot, Whale, Yoda, Mermaid, Tower, Bird House, Windmill, Unicorn, and countless more. The possibilities truly are endless!

How do we book?

For booking details or general enquiries, please email us at hello@seedofplay.co.uk. If your event is scheduled **more than a month in advance**, we require a **25% deposit**, with the remaining balance due one week prior to the event date.

This is an amazing idea for children. My son is in his element. He loves crafting. He's never been able to use a drill before, so this was an amazing opportunity for him and the lady has been so helpful teaching him what to do.

How! What an amazing idea to teach kids how to explore their creativity and use up leftover materials! I have learned myself that I need a bit of practice with power tools and some
