Indivisible Empathy United is a grassroots community group based in Atlantic City and the surrounding communities. We are dedicated to protecting democracy, promoting fairness, and uplifting the voices of everyday people. We believe empathy is the foundation of strong communities, and we work together to create positive change through civic engagement, advocacy, and collective action.

We host town halls, rallies, and community events that bring neighbors together across differences to learn, connect, and take action on the issues that matter most—whether it's education, climate, equity, or protecting fundamental rights.

Our mission: to unite people around compassion, inclusion, and justice, and to ensure that our local and state leaders are accountable to the people they serve.

Join us! Together, we can build a more fair, empathetic, and democratic future.

We believe in protecting the rights of all people, regardless of political party, race, religion, gender, or economic status. We work together to ensure that our democratic system of government will continue to flourish by standing up for the principles our country was founded on. We work together to hold our elected officials accountable. We believe in the power of empathy to foster connections across differing beliefs.
We are Indivisible: Empathy United.
