Dangerous doctor

This doctor's malpractice has left me on disability since 2012 when she was affiliated with Portland Adventist Health! I was forced to take medicine for a condition we still don't know if i have to spite being held against my will, against the law. So much malpractice, so many civil rights and legal issues which aren't going away. If ive been on disability for something i dont have, hmmm. And if i do have it much legal liability for a failed investigation. Dangerous doctor.

Its time to recertify my disability that i have been on since 2012 thanks to Adventist Health. There are many questions to be answered and so much damage has been done.

Praise Jesus and god bless you
