CAREER OBJECTIVE

To become a reliable technical project manager who will be able to assist the company or organization towards achieving its missions & goals.

EMPLOYMENT EXPERIENCE

ELYON SOLUTIONS INTERNATIONAL INC., MAKATI

IT Project Consultant (Nov 2024 – Present)

- Perform Linux OS cloud installation and administration for Odo CRM, ensuring smooth implementation, optimized performance, robust security, and providing hands-on training and personalized guidance as a resident Linux Trainer to empower staff in managing Linux systems efficiently and innovatively.

DEPARTMENT OF HEALTH, MANILA

Information Systems Analyst III, DPCB & EB (Sep 2021 – Dec 2022)

- Provide comprehensive progress reports, execute and monitor Health Information Systems-related projects, coordinate and train with stakeholders, and actively participate in meetings to ensure project alignment and success, while overseeing the seamless operation, security, and performance of the Linux-based web and database server hosting the DOH Integrated Health Information System by performing regular updates, managing configurations, optimizing server resources, proactively monitoring and troubleshooting, and implementing robust security protocols to minimize downtime and enhance website functionality.

ORIX METRO FINANCE & LEASING CORPORATION, Makati (via Emerio Philippines, Inc.)

IT Project Manager, ICTD Department (Apr 2019 – Sep 2019)

BDO UNIBANK INC., MAKATI (via SLI Consultancy, Inc.)

IT Project Manager, ITDev Department (Jan 2018 – Jan 2019)

- Effectively provide daily progress reports, execute, monitor, and coordinate IT and Finance/Bank-related projects with business stakeholders, and actively participate in daily scrum, stand-up, and executive meetings to ensure seamless project execution and communication.

PTERIS GLOBAL LTD SINGAPORE

Senior Software Engineer, CSI Department (Nov 2009 – Feb 2016)

- Lead a team of developers in executing and monitoring projects, provide daily progress reports, maintain critical airport management systems (such as Baggage Handling Systems, In-Flight Catering Systems, Flight Allocation Systems), and coordinate with vendors and business units.
- Ensure the seamless operation, security, and performance of the Linux-based web and database server hosting Pteris Global IT Projects on web-based Manufacturing and Monitoring Systems through regular updates, configuration management, resource optimization, proactive monitoring, troubleshooting, and implementation of security protocols.

EDP SERVICES, CITY GOVERNMENT OF MANILA

Senior Applications Engineer / Chief of Operation Section

Apr 2003 – Oct 2009

- Oversee the seamless operation, security, and performance of the Linux-based web server hosting, database server and e-mail server of the Manila City Website, including regular system updates, configuration management, optimization of server resources, proactive monitoring, troubleshooting, and implementation of security protocols to minimize downtime and support website enhancements.
- In-charge of overall operation of the IT Department which include monitoring, coordination and management of all IT projects with vendors and business units. Providing progress reports.

Analyst Programmer (Jan 2000 – Mar 2003)

- Develop and maintain systems for all revenue generating departments of the city of Manila such as RPTS, BPLS, CCRS, OVRS, etc.

PAMANTASAN NG LUNGSOD NG MAYNILA

Asst. Professor Lecturer 1 (Part-Time), Graduate School of Engineering

June 2007 – May 2009

- Responsible for teaching and facilitating graduate students in IT-related subjects including Programming Techniques, Database Management Systems (DBMS), and Computer-Based Information Systems (CBIS).

MAPUA INSTITUTE OF TECHNOLOGY, MANILA

Associate Professor 1 (Part-Time), EE-ECE-COE Department

June 2000 – June 2009

- Responsible for extending my expertise to Engineering students by guiding them through complex subjects like AutoCAD, Programming, Microprocessors, Logic Circuits, Linux Essentials, and Administration.

LYCEUM OF THE PHILIPPINES UNIVERSITY, MANILA

Assistant Professor 1 (Part-Time), College of Computer Studies Jun 1999 – Mar 2007; College of Technology Sep 2021- Jun 2022

- Responsible for teaching BSIT and BSCS students a range of vital subjects, including Linux Essentials and Administration, Programming, Database Management Systems, and other IT-related disciplines.

PROFESSIONAL SUMMARY

Seasoned Software Engineering professional with a solid track record of escalating technical leadership and project management roles in computer technology and business-critical management. Specialized expertise in system analysis and design, software development, server and network administration, system quality control, technical documentation, and user training. Renowned for exceptional diagnostic abilities, meticulous attention to detail, and the capability to thrive in a fast-paced environment, delivering high-quality results consistently.
