Release of Final Pre-Draft Master DB

Friday, Jan. 2, 2026, 11 pm CT (Midnight ET, 9 pm PT)

Trade moratorium continues until 8 am CT 1/15/2026. (**Note:** GMs can continue to talk trade and agree on deals, but all trades from this point to the completion of the draft can only be reported as FINAL when they involve players-for-players.)

Week 1 of Draft

Weeks 1, 2 and 3 of draft require [Google Docs](#) and [Slack](#). Picks will be announced in Slack by the selecting manager, and the selecting manager must then move the selected player in Google Docs (further instruction forthcoming). Assistance will be available upon request.

If there is a trade, it must be announced in Slack and the draft is on pause (no selections may be made) until the Commissioner has confirmed the trade.

Post Draft and Post-Draft Add/Drop

Sunday, Feb. 1, 2026

- Commissioner will audit Master DB and game site rosters.
- Trading of players and 2027 draft picks is allowed.
- **Each team allowed 1 roster adjustment** – adding a player from ZXFA and replacing a player on their 40-man roster. This is a feature we allowed through the 2021 Draft (Post-Draft Add/Drop) and are restoring this year. This adjustment must be submitted to geoffcooper3000@gmail.com between 9 am and

3 pm CT. Requested changes will be processed on a first-come, first-serve basis with the Commissioner's selection (if any) processed at Noon CT.

How the Timed Draft Picks Work

The following applies to all picks beginning Jan. 15, 2026, through Jan. 26, 2026:

- GM must make selection before the PICK DUE date and time logged in the Google Docs Draft Board but not until the prior selection's PICK DUE time has passed.
 - Please note the PICK DUE dates and times are **highlighted in yellow** on the "2026 Draft Results" tab in the Google Doc.
 - At the end of each night, the Commissioner will send an updated MASTER DB to all GMs and update the Dynasty Game Site with all selected players and finalized trades.
 - In the Google Doc, **the GM will recast the pick times for the next day**. GMs should review the pick schedule before the next day's draft and plan accordingly. If you are unable to make your selection, feel free to share names with the Commissioner, the Assistant Commissioner, or other trusted GM, and they can make your selection for you. **To text or call the Commissioner, please use this number – 414-331-8374 – or message in Slack when it relates to the draft.**
- AA selection is **made** in the **Slack App** by announcing your pick in this format – "DET picks Justin Verlander, P." Once you've announced the selection in Slack before your PICK DUE time, that player is yours, however, you must finalize the selection in the Google Doc.
- A selection is **finalized** in the **Google Doc** by:
 - For the selected player, copying Columns A-through-J on "ZXFA Free Agents" tab and pasting it in your draft slot on the "2026 Draft Results" tab.
 - **Note:** If you need help with the Google Doc, please indicate so when making your pick in Slack. There are typically people in the Slack chat who can help you finalize the selection.
- For picks during the Zoom portion of the draft (Jan. 29 through Jan. 31, 2026), PICK DUE times are approximate. GMs are expected to actively participate (Zoom optional) to keep track of when their next selection is. The Commissioner, or a proxy, will announce who is "on the clock" and that team will have 3 minutes to make their selection once this post is made.
