

Care Instructions:

Due to the nature of bamboo, the surface of the product may have uneven colors. Please consider them as Nature's guarantee of genuineness!

DO:

- Please be gentle with the new product. Since we understand toddlers are prone to brake things accidentally, we made our products as solid as possible. But bamboo is a natural material after all!
- Please hand wash the product with mild detergent, care, and love.
- Please dry the product carefully with a soft fabric after washing. Remember that bamboo is afraid of humidity!

DO NOT:

- Do NOT put the product in the freezer or oven. Otherwise the natural bamboo may become damaged!
- Do NOT let toddlers or young children use cutlery without supervision. Anyhow, we have removed sharp angles in our products, just in case!
- Do NOT store food on the product overnight or place it in a humid environment for an extended period of time.
- Do NOT expose the product to direct sunlight over an extended period of time. Doing so can cause discoloration.
- Do NOT use abrasive scrubbing pads when washing the product.
- Do NOT use chlorine or chlorine based detergents when attempting to wash the product.

SGS Test Records of La Boos Bamboo materials:

Test Content	Limit of Quantification/ Limit of Detection	Results	Standard
Migration: Formaldehyde	4mg/kg with water at 203 Fahrenheit for duration of 30 minutes	N.D. ¹	US FDA
Pentachlorophenol (PCP)	50 mg/kg	N.D. ¹	US FDA
Antimicrobial Effectiveness Testing	< 10 CFU/ml	Pass ²	US FDA
Sulfur Dioxide	0.01 g/ kg	N.D. ¹	SGS
Soluble Heavy Metal ³ Content	2-10 mg/kg	N.D. ¹	CNS 4797-2

1. N.D. stands for Negative in regards to the Limit of Quantification and Limit of Detection.
2. Significant anti-microbe effect against E. coli, Staphylococcus aureus, Pseudomonas aeruginosa, and Candida albicans.
3. The heavy metal test includes assessment of Antimony, Arsenic, Barium, Cadmium, Chromium, Lead, Mercury, and Selenium

laboos is dedicated to promoting creative and Earth friendly products for environment and health conscious consumers around the world.

la-boos®

Thank you for choosing La Boos!

We are dedicated to designing and producing environmentally friendly products made from high quality Moso bamboo for you and the Earth.

The surface of our bamboo products might have uneven color or minor scratches because they are made from natural bamboo.

Please invest a minute to read the care instructions to help extend the product's life span.

Why La Boos?

La Boos has more than three decades of experience in crafting and manufacturing quality bamboo products. Our goal is to cultivate that expertise to create kid-friendly dining sets and beautiful kitchenware for your family and the Earth.

Beautiful Kitchenware for You and the Earth.

Our products are:

Eco Friendly

Bamboo is a natural material that has a long history of being widely used to improve people's lives. Bamboo is renewable, biodegradable, and compostable, providing an environmentally friendly alternative to plastic utensils. In addition, all product boxes are made of at least 80% recycled materials.

Family Friendly

La Boos' portfolio is composed of kitchenware and utensils that are specifically designed to stimulate toddlers and young children to eat on their own in a fun way. On top of that, our natural bamboo products help equip parents in preparing healthy and cheerful meals for the whole family!

Toxin & BPA Free

La Boos' bamboo do not have harsh toxins*. (Please refer to the chart in the back for test results). We use SGS certified bamboo lumber that has passed a soluble heavy metal test, several other toxin tests, and FDA Pentachlorophenol (PCP) compliances. We want to make sure you have peace of mind while using our products!

High Quality Bamboo

La Boos only selects strong and high quality Moso bamboo lumber that improves the durability and life span of our products. Since toddlers and young children are still in the process of learning to use utensils, we also provide a generous selection of options that allows them to experiment without the concern of anything breaking easily.

Easy to Clean

With an extra coating that prevents humidity from damaging the bamboo, La Boos' products can be easily cleaned and washed with a mild detergent. We recommend that you do not clean your bamboo products in the dishwasher, as doing so may cause scratches, distortions and discolorations.
