

# *Love scent aprons*

for the ZANAGA BABY  
scented comforter

*100%  
organic  
cotton*

Certified to CE childcare standards EN71-1

The ZANAGA BABY Love Scent comforter is a bit magical. Very soft and made of organic cotton, it allows you to insert, inside of it, a fabric impregnated with “the scent of love”, like that of mommy’s breast milk. A few drops on that piece of fabric makes the entire comforter smell magic ... while remaining hygienic.

These small pieces of fabric to be impregnated are what we call the Love Scent comforter aprons.

Order them in sufficient quantity to be able to change them regularly. The whole comforter won’t need to be washed very often.
