

# Supercharge Your Back-of-House with the SkyTab Kitchen Display

Connect your front-of-house and back-of-house operations with a kitchen display system (KDS) for maximum speed and efficiency.

## Intuitive

- Customizable and easy-to-use interface
- Large screen with easy-to-read information

## Reliable

- Always-on connectivity allows orders to transmit to KDS using local connection
- Commercial-grade hardware supports operations in high-volume settings
- Kitchen performance insights track kitchen productivity

## Scalable

- Routes orders to multiple prep stations with multi-station fulfillment
- Displays item status from prep stations for cross-team collaboration
- Routes all direct and integrated third-party orders from the POS
