

## BHS International Convention in Salt Lake City

In case you missed it, **Half and Half** sang on the giant stage during the Saturday Night Spectacular during International! It was so incredible to have been asked to take part in something so special. To represent the “Everyone in Harmony” mission was so important to us. Hopefully, you were able to watch us on FloVoice if you weren’t there in person. It was a whirlwind weekend. What an honor it was to sing with Double Date, The Ladies, Instant Classic, Forefront, and ClassRing.

## The Harmonizer July/August 2019 Issue

### Mix It Up - Experiencing the joys of mixed harmony singing

While the rich musical and social experiences of single-gender barbershop are valuable institutions that should be celebrated and preserved, the vast majority of the world’s singers choose to perform in mixed-gender ensembles. Many barbershop singers have long wanted the best of both worlds—to sing genuine barbershop and to sing with all the people they love. Mixed

harmony gives husbands and wives, mothers and sons, friends of all types the authentic four-part harmony they love without regard to gender.
