Open Gym Environment

At Gateway Physical Therapy & Wellness treatment is provided in an open gym environment, where several clients are treated by our therapists simultaneously. We believe this open environment adds efficiency, by allowing your therapist to see you perform exercises. We also enjoy fostering a spirit of camaraderie in our facility.

This notice alerts you to the open environment and the fact that others may observe you and your therapist during treatment. Please notify us if you have any questions concerning our treatment environment, or if we can make an alternative arrangement for you.

By signing below, you acknowledge receipt of this notice.

Thank you.
