

re: [EXTERNAL] Belmont Park Illegally Pumping Water into Sewer and Storm Drain – Immediate Action Needed

From: Office of Mayor Todd Gloria (mayortoddgloria@sandiego.gov)

To: khop1@aol.com

Date: Tuesday, August 26, 2025 at 04:28 PM PDT

Hi Kevin,

Thank you for contacting the Office of Mayor Todd Gloria regarding the stormwater issues at Belmont Park. The Stormwater Department's Code Enforcement team inspected the location on August 7, 2025 and witnessed a discharge into the storm drain system. There was a broken water line under one of the planters, that was discharging sediment laden water into the storm drain system. The repair was in progress, but no BMPs were in place. The work has since been completed so there will be no re-inspection. Due to past stormwater violations at Belmont Park within the last three years, the citation amount has been increased for them.

Again, thank you for sending this over.

Best regards,
Randy Reyes (he/him)
Community Representative
Districts 2 & 3
Office of Mayor Todd Gloria
City of San Diego
