PRESIDENTS CORNER:

As spring is on its way and the weather is getting warmer, we look forward to the usage of the community pool. The heater has been fixed at the pool and everything is working properly.

The heater in the club house was fixed and operating properly. Please note if you are using the club house, please turn the air conditioning back up to 78/79 degrees. I stopped in and it was set at 74 degrees.

Another Reminder to all guests and residents utilizing the clubhouse, please remember to turn off Lights, Fans, and return anything moved back to how you found it.

Progress is moving forward regarding the 10 construction units. There are work crews there doing the interiors and sheet rocking as well. It is my understanding that the last phase is to redo all the roofs and then they will be ready to be sold.

The vacant land is moving forward whereas the county gave the first stage verbal approval for the units to be built there. Please note that any obstacles are plausible as it is county government.

Please drive the posted 20 miles per hour within East Greens as the roads are posted with signs showing the maximum limit. This is also for our guests visiting with us as well. So please give them a friendly reminder of the speed limit.

Hoping everyone has a nice St. Valentine's Day
