

- Action Plan

Walls:

Neutral colours will be perfect for this room. I would suggest a garish. (Warm grey)

Lighting:

In order to sectorise the room I suggest 2 different kind of lightings that are energy efficient and will look cozy and moder

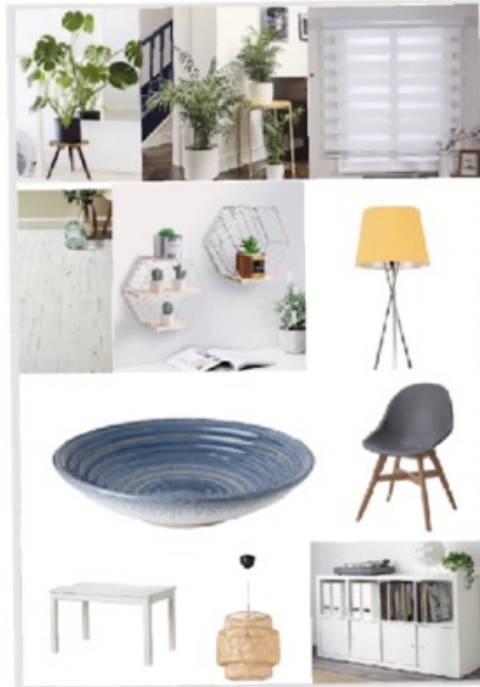

Floor:

Due to the room orientation, we have to take advantage of the sunlight we can capture. Based on your budget, I suggest a Click-on floor with a good underlayer (efficient for winter). In terms of colour, light oak could look great!
