WHY HOST[®]?

The Dry Extraction Carpet Cleaning System

HERE'S WHY..

- Deep cleans fast and easy saves you cleaning time.
- Spots won't come back - no wickback!
- Use carpet right away - no downtime!
- Low moisture method allows deep cleaning of just the soiled areas makes maintenance extremely cost effective. (see next page)
- Prolongs carpet life.
- Safe for all carpets including stain resist and wool.
- Recommended by leading carpet manufacturers and fiber producers.
- HOST[®] was rated #1 by the leading consumer testing magazine.

What is HOST[®]?

HOST[®] SPONGES Cleaner looks and works just like a sponge in your kitchen, dissolving and absorbing dirt.

- It's a soft natural product, moistened with water and safe cleaning ingredients.
- It's a low moisture method that holds and controls the cleaning liquids so dissolved dirt doesn't run into the carpet backing.

Brush the SPONGES to wipe the soil from the carpet fibers. Just remove the soiled SPONGES with an extractorVAC, vacuum or sweeper and the carpet is dry, clean and ready to use!

HOST[®]

How HOST[®] Works

Special counter-rotating brushes insure that HOST Dry Carpet Cleaner deep cleans and removes ground-in dirt.

The HOST[®] System uses specially designed equipment and sponges.

HOST[®] extractorVAC machines has unique counter rotating brushes to pile lift and dislodge dirt; and HOST[®] sponges contains balanced blend of water, detergents, wetting agents and organic ingredients. As the sponges are brushed through the carpet, the absorbent particles deep cleans by dissolving, trapping and removing spots, spills and greasy, oily dirt. Vacuum up the sponges and the carpet is clean, dry and back in service.

The HOST[®] System is designed for use in many applications to meet all of your carpet cleaning needs.

And, HOST[®] is approved by most major carpet manufacturers worldwide.

HOST[®] safely cleans any carpet type, including stain resistant, wool and even delicate oriental rugs.
