# POWERING BUSINESS

with incentives to help save energy and money.

## Idaho Power has the resources to take your business to the next level:

- Our business prices are 30% below the national average.
- We offer cash incentives for businesses of all sizes who design and build facilities with energy efficient technologies, systems, and strategies.
- We offer a Professional Assistance Incentive to third-party architects or engineers who support the technical aspects and paperwork for the incentive process. This incentive equals 20% of the participant's total incentive, up to \$5,000 per project.

**Contact us today to discuss your energy needs:**

# CONFERENCE PROGRAM

THURSDAY, OCTOBER 2, 2025

**7:30 AM - 8:15 AM**      **Coffee/Meet & Greet/Registration**

---

**8:30 AM - 8:45 AM**      **Welcome and Opening Remarks by AIA Idaho and AIA College of Fellows Western Mountain Region**

---

**8:45 AM - 9:30 AM**      **Plenary: Architecture in the Future: The Role of AIA**  
*Ilyia Azaroff, FAIA / President-Elect, AIA National*

---

**KEYNOTE 1**

**9:30 AM – 10:30 AM**      **The Work of KieranTimberlake: Past, Current, and Future**  
*Stephen Kieran, FAIA / KieranTimberlake*  
Stephen will present and discuss the work of **KieranTimberlake**, providing insights into their approach to architecture and how the firm is poised for future success.

---

**10:45 AM – 11:45 AM**      **AI In Practice & Design**  
*Damon Leverett, AIA / NOMA*  
Damon will present and discuss the use of Artificial Intelligence (AI) tools and demonstrate how he has implemented them in his own practice, providing insights into how they will become part of architectural practice in the future.

---

**12:00 PM**      **Lunch & Networking**

---

## KEYNOTE 2

### The Work of Perkins Eastman: Past, Current and Future

*Frances Halsband, FAIA | Perkins & Eastman, Former Chancellor, AIA College of Fellows*

**1:00 PM - 1:45 PM**

Frances will present and discuss the work of **Perkins & Eastman**, providing insights into their approach to architecture and how the firm is poised for future success, with anecdotes about her role as Former Chancellor of the AIA College of Fellows and the role that the College can play in supporting practicing architects in the future.

---

### Mass Timber | Studio NYL

*Julian Lineham, PE, CEng, FSEI, FASCE, FICE*

**2:00 PM - 2:45 PM**

Julian will present and discuss recent and current mass timber projects underway with Studio NYL's architect clients, providing examples of challenges and opportunities and lessons learned.

---

### The Work of Leers Weinzapfel Associates: Past, Current and Future

*Andrea Leers, FAIA / Principal, Leers Weinzapfel Associates*

**3:00 PM - 3:45 PM**

Andrea Leers, FAIA, will share the design vision behind Leers Weinzapfel Associates, the first woman-owned firm in the U.S. to receive the AIA Firm Award. Andrea will reflect on recent projects and how her dual roles in practice and academia have influenced her work.

---

### Path to Fellowship Panel Discussion

*Moderated by John Sparer, FAIA | WMR Regional Fellows Representative, AIA NV Fellows Senior Representative, WMR Pettigrew Legacy Fellow*

**4:00 PM - 4:45 PM**

A panel of Fellows from the AIA COF WMR will discuss the Objects available for architects to choose when pursuing Fellowship, the challenges associated with preparing their submittals, and insights about what to expect and the rewards associated with submission for and elevation to Fellowship.

## Path to Fellowship Panel Discussion

### Panelists:

**4:00 PM – 4:45 PM**

- Will Babbington, FAIA, Studio NYL
  - Jeanne Jackson, FAIA, VCBO Architecture, 2026 Chancellor, AIA College of Fellows
  - Gregory M. Friesen FAIA | CSNA Architects
- 

## Open Studio Night

**5:00 PM – 7:00 PM**

Meet at the Renegade lobby bar at 5:00 PM to join one of two guided walking tours led by local architects and the Boise Historic Tour Guild. Each tour will visit 3 firms and end at CSHQA for signature cocktails — plus a chance to win a free night at the Renegade and local gift cards!

*Map provided on page 16.*

---

**FRIDAY, OCTOBER 3, 2025**

**9:00 AM - 10:00 AM Coffee & Student Projects Display**

---

**10:00 AM - 10:15 AM**

### Welcome and Opening Remarks

*AIA Idaho, MC Gretchen Wagner, AIA*

---

### KEYNOTE 1

**10:15 AM - 11:00 AM**

## Reimagining Buildings in a Time of Change

*Zack Semke, Director of Passive House Accelerator, host of the Reimagine Buildings Collective, co-host of the Passive House Podcast, and a member of the Climate Reality Leadership Corps.*

Zack earned his BA in Human Biology with a concentration in Human Ecology from Stanford University.

## KEYNOTE 1

10:15 AM - 11:00 AM

### Reimagining Buildings in a Time of Change

*Zack Semke (continued)*

For over fifteen years he has communicated and shared about the power of Passive House practice to slow climate change and make us more resilient to its impacts.

Architects have more power than most to make a real impact on climate resilience and solution-making. It's already happening in pockets around the country. We can draw lessons from sectors like clean energy to reimagine what is possible in buildings and to make a paradigm shift from scarcity to abundance, not in spite of the magnitude of the challenges we face, but because of it.

---

## KEYNOTE 2

11:00 AM - 11:45 AM

### Playing Scales

*Frank Jacobus, AIA / Head of Architecture, Chair in Integrative Design, Penn State University, Principal of SILO AR+D*

Frank Jacobus is an architect, designer, artist, educator, and a principal of SILO AR+D. He currently serves as the Head of Architecture, and Chair in Integrative Design at Penn State University. His professional design work and creative practice have received national and international attention for its experimental and resourceful approach. Frank's work with SILO has been recognized with numerous publications, exhibitions, and design awards including as an Emerging Voice by The Architectural League of New York (2016), a Next Progressive by Architect Magazine (2018), and AN Interior Top 50 American Architects by the Architect's Newspaper (2021).

---

12:00 PM - 1:00 PM    **Lunch & Networking**

---

## KEYNOTE 3

1:00 PM - 1:45 PM

### Quiet Activism

*Anne Schopf, FAIA / Senior Design Principal and Director of Design, Mahlum Architects*

---

### KEYNOTE 3

1:00 PM - 1:45 PM

#### Quiet Activism

*Anne Schopf, FAIA / Senior Design Principal and Director of Design, Mahlum Architects*

In an age of urgency and disruption, we often look to bold gestures and loud voices to catalyze change. But what if some of the most powerful forms of activism are quiet, persistent, and deeply embodied? In this keynote, we'll explore the concept of Quiet Activism—a mode of architectural practice grounded in intention, integrity, and sustained commitment to social and environmental justice. Drawing a parallel to seed savers—whose quietly subversive acts of growing, harvesting, and sharing offer a radical reimagining of food systems—she will reflect on how architecture, too, can be a vehicle for transformation, not through spectacle, but through steady, purposeful work.

Anne will share how Mahlum has embraced this ethos, beginning with clear goals rooted in equity and sustainability, then cultivating practices that align design with deeper values. From vision-setting and collective staff engagement to project examples that manifest these commitments, she'll illustrate how small, consistent acts can shape systems and communities over time. Together, we'll consider how architecture's tangible interventions—spaces, materials, rituals—can serve as quiet, yet potent acts of resistance and care. This talk invites a reframing: to see quiet not as absence, but as a fertile ground for agency and radical potential.

---

### KEYNOTE 4

2:00 PM - 2:45 PM

#### Retrofitting at the Extremes: From Fire Recovery to Airtight Performance

*Julie Torres Moskovitz, AIA / Principal of Fete Nature Architecture, PLLC*

Much of our built environment already exists, yet these structures often require thoughtful retrofitting to support contemporary life. Our task as architects goes beyond ensuring comfort and safety; we have a responsibility to infuse each project with inspiration, performance, and a sense of wonder that elevates daily life.

## KEYNOTE 4

**2:00 PM - 2:45 PM**

### **Retrofitting at the Extremes: From Fire Recovery to Airtight Performance**

*Julie Torres Moskovitz, AIA / Principal of Fete Nature Architecture, PLLC*

How do we achieve design excellence while addressing demanding technical challenges — such as fire odor remediation in damaged buildings, or achieving airtightness to create an ultra-efficient envelope? As extreme weather events and disasters become more frequent, clients across the U.S. are seeking solutions that prioritize resilience, energy efficiency, passive survivability, and rapid recovery. A skillfully designed renovation or adaptive reuse project can breathe new life into a building and its surrounding community, offering both beauty and protection. As architects, we must embrace this complexity with confidence and creativity. Let's explore how we can successfully navigate these challenges to deliver transformative, future-ready projects.

---

**3:00 PM - 4:30 PM**

### **Architecture & The Future Panel Discussion**

*Moderated by Gretchen Wagner, AIA and Adam Wagoner, AIA*

Panelists: 6 Design Awards Jurors.

---

**4:30 PM – 5:45 PM**

### **A Toast to Our Sponsors and Industry Partners!**

Pre-gala reception.

---

## AWARDS GALA AND CELEBRATION

**6:00 PM – 7:00 PM**

**Dinner Service**

**7:00 PM – 7:15 PM**

**AIA Idaho Honor Awards Presentation**, *Glen Berry, FAIA*

**7:15 PM – 7:30 PM**

**AIA Idaho Emerging Voices Awards Presentation**, *Emerging Voices Jury*

**7:30 PM – 8:00 PM**

**AIA Idaho - Design Awards Presentation**, *Design Awards Jury*

**8:00 PM – 9:00 PM**

**AIA College of Fellows Western Mountain Region -  
Design and Honor Awards Presentation**, *Jon Sparer, FAIA*

**9:00 PM**

**Champagne Toast!** *Congratulations to all of the 2025 Honor & Design Awards recipients!*

# Explore the North American Building Industry Collection

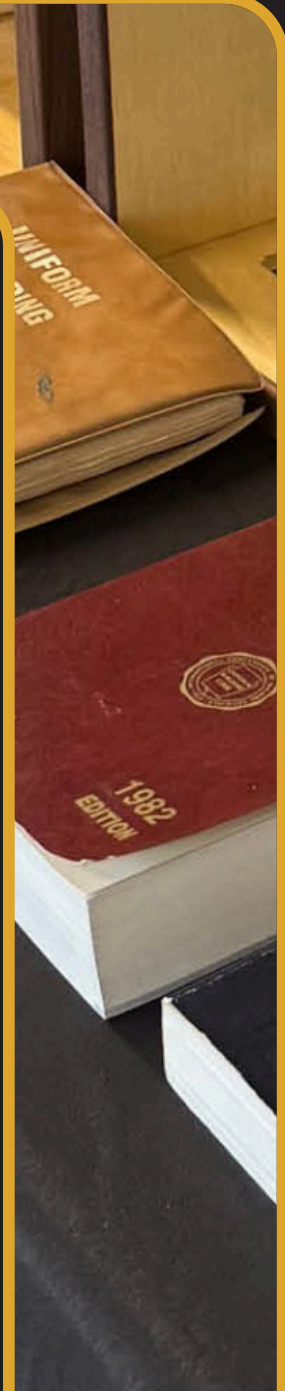

**AIA IDAHO DESIGN CONFERENCE**

October 2-3

Hotel Renegade, Boise Idaho

Discover the rich history of the building industry through rare books, documents, and artifacts that trace the evolution of construction across North America. This is the largest collection of historic and antique building codes and industry documents in North America.

Our collection offers a unique glimpse into the evolution of the building codes and other industry documents, as well as the impact of historic events on the codes.

# 2025 AIA COLLEGE OF FELLOWS WESTERN MOUNTAIN REGION HONOR & DESIGN AWARD JURY

## STEPHAN KIERAN, FAIA, JURY CHAIR

*KieranTimberlake*

Under his guidance as a Founding Principal of KieranTimberlake, the firm has received over 260 design citations, including the AIA Firm Award in 2008 and the Cooper-Hewitt National Design Award in 2010. Steve and co-founder James Timberlake were the inaugural recipients of the Benjamin Latrobe Fellowship for architectural design research from the AIA College of Fellows in 2001. Since 2002, they have co-authored seven books on architecture, including the influential book refabricating Architecture and their newest monograph, KieranTimberlake: Fullness.

## FRANCES HALSBAND, FAIA, JUROR

*Perkins Eastman*

Frances has worked on more than 50 college campuses across the country as an award-winning designer, in a design advisory role, as a faculty member, and as dean of the architecture school at Pratt Institute. Her role as lead designer for university projects and campus plans has been recognized with numerous awards and honors, including the national AIA Firm Award and the Medal of Honor from NYC AIA. Her research papers on campus design have been published in The Chronicle of Higher Education and Places Journal. In 2023, Frances became the 61st Chancellor of the AIA's College of Fellows.

## ANDREA LEERS, FAIA, JUROR

*Leers Weinzapfel Associates*

In 2007, Leers Weinzapfel Associates became the first woman-owned firm in America to receive the prestigious AIA Firm Award, and it has been included on ARCHITECT magazine's "Top 50" US firms roster since 2015. Parallel with her practice, Andrea is a former director of the Master in Urban Design Program at the Harvard Graduate School of Design, where she was adjunct professor in Architecture and Urban Design, and she now serves on the university's Design Advisory Pool. Her previous appointments include Yale University, the University of Pennsylvania, and the University of Virginia. Internationally, she has taught at Tokyo Institute of Technology, National Chiao Tung University in Taiwan, and the University of Paris, Sorbonne. She was a Visiting Artist at the American Academy in Rome and lectures and participates in symposia and design juries throughout the United States, Europe, and Asia. Andrea's work earned her the Boston Society of Architects Award of Honor, and she was Commissioner for the Mayor's Boston Civic Design Commission.

# 2025 AIA IDAHO

## DESIGN AWARDS JURY

### FRANK JACOBUS, FAIA

*Head of Architecture, Chair in Integrative Design  
Penn State University*

Frank Jacobus is an architect, designer, artist, educator, and a principal of SILO AR+D. He currently serves as the Head of Architecture, and Chair in Integrative Design at Penn State University. His professional design work and creative practice have received national and international attention for its experimental and resourceful approach.

Frank's work with SILO has been recognized with numerous publications, exhibitions, and design awards including as an Emerging Voice by The Architectural League of New York (2016), a Next Progressive by Architect Magazine (2018), and AN Interior Top 50 American Architects by the Architect's Newspaper (2021). SILO's work has been featured by the Wall Street Journal, CNN, Architect, the Architect's Newspaper, Azure, Slate, Dwell, Salon, Fast Company, and others.

Frank's published works include *Archi-Graphic: An Infographic Look at Architecture*, Laurence King (2015), *The Visual Biography of Color*, Oro Editions (2017), *The Making of Things: Modeling Processes and Effects in Architecture*, Routledge (2021), *Architectonics and Parametric Thinking*, Routledge (2023), and *Artificial.Intelligent.Architecture*, ORO Editions (2023).

# 2025 AIA IDAHO

## DESIGN AWARDS JURY

### ANNE SCHOPF, FAIA

*Senior Principal, Director of Design, Mahlum Architects  
Seattle, WA*

**A**s a Senior Design Principal and Director of Design at Mahlum Architects, based in Seattle and Portland, Anne has made a lasting impact on the architectural landscape of the Pacific Northwest through her dedication to sustainable design. She has worked across a diverse range of sectors, including education, healthcare, housing, and commercial mixed-use. Under her leadership, Mahlum has received five Top Ten COTE Green Project awards from the AIA Committee on the Environment, as well as more than 100 AIA and IIDA design awards at both regional and national levels.

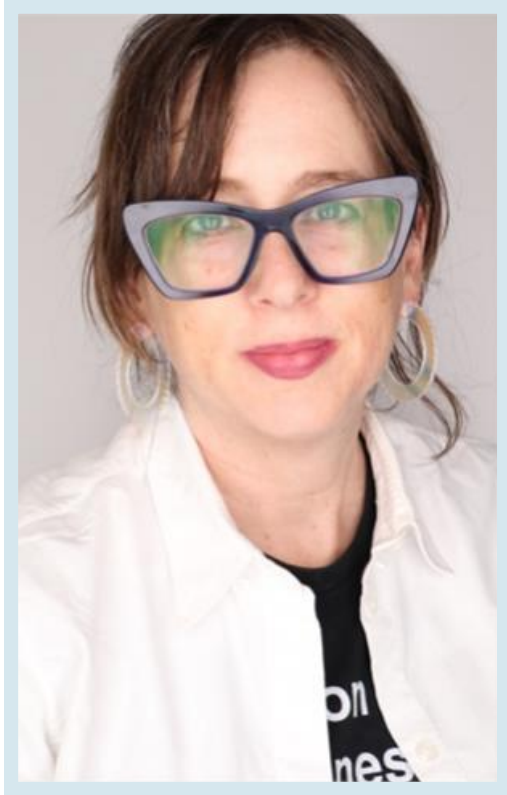

Throughout her career, Anne has crafted spaces defined by an elemental sense of materiality, infused with natural light, and deeply connected to their surroundings. This sensitive and often understated collection of spaces reflects a poetic respect for nature, skillfully employing light, air, seasonal changes, and weathering to heighten occupants' awareness of and connection to the natural world.

Anne is a dedicated advocate for design excellence and an active participant in fostering meaningful design dialogue through professional engagement at the national, regional, and local levels. She has served on the AIA National Committee on the Environment (COTE) Advisory Group and the Committee on Design (COD) Advisory Group, where she chaired in 2011 and led Honorary FAIA nominations. She is a frequent juror for prestigious awards programs, including AIA Fellowship, AIA COTE Top Ten Green Projects, AIA Academy of Architecture for Health (AAH) Healthcare Design Awards, and the 2009 AIA National Honor Awards for Architecture.

A Fellow of the American Institute of Architects since 2007, Anne remains actively involved with AIA Seattle, where she served as President in 2010. She also participates in studio reviews at the University of Washington School of Architecture and frequently speaks at regional and national conferences on integrated design. Anne graduated with honors from Rensselaer Polytechnic Institute with degrees in Architecture and Civil Engineering and currently serves on the School of Architecture's Dean Leadership Council.

# 2025 AIA IDAHO

## DESIGN AWARDS JURY

### JULIE TORRES MOSKOVITZ, AIA, WELL AND LEED AP, CPHC

*Principal of Fete Nature Architecture (FNA Studio)  
Brooklyn, NY*

**J**ulie Torres Moskovitz, AIA, WELL and LEED AP, CPHC – is Principal of Fete Nature Architecture (FNA studio) based in Brooklyn, NY which is a firm that explores new ways to inhabit the urban fabric. Her work has ranged from residential and commercial hyper-efficiency and passive house retrofits to public realm and social impact projects. Prior to FNA, she was Director of Sustainability and a Senior Associate at WXY architecture + urban design in NYC. She has co-led several projects for WXY with NYCHH, NYCHA, NYPA, NYSOPRHP, Liberty State Park, NJ and Chester Agricultural Center farmworker housing.

Julie has over 25 years working in NYC construction industry on a range of projects and specializes in energy-efficiency retrofitting and new construction. She was the architect on the first certified Passive House project in NYC in 2012 which won an International Passive House Design Award and she wrote a book titled *The Greenest Home, Superinsulated and Passive House Design* with 18 case studies. and has since led passive house strategy projects in NYC, Seattle, and Atlanta.

Torres Moskovitz is active in the community and is an appointed public member of Brooklyn Community Board 1's Environmental Protection Committee and on the Advisory Boards of both Street Vendor Project and Youth Design Center. She is a Director on the Board of Directors at Brooklyn AIA. She also teaches at various universities such as NYU, Pratt, Parsons, Syracuse University, and RISD.

Julie is a licensed architect in NY, NJ, CT, PA, WA, OH, and GA and is NCARB-certified. She is also an Owner's Representative, Sustainability consultant, Certified Passive House Consultant, Certified Passive House Tradesman in Building Envelope, and LEED AP, WELL AP and a Regenerative Design Practitioner.

# 2025 AIA IDAHO

## EMERGING VOICES JURY

### ASIA DAVIS, ASSOC. AIA

*Emerging Professional at Lombard Conrad Architects | Boise, ID*

**A**sia Akiko Davis is an Emerging Professional at Lombard Conrad Architects and a recent graduate of the University of Idaho. She believes in the power of architecture to be part of a broader solution—creating spaces that support people and community.

While at U of I, she contributed to the award-winning redesign of a historic chamber of commerce and visitor center and studied abroad in Malaysia and Singapore to deepen her global design perspective. Her work is driven by optimism, purpose, and a commitment to thoughtful, inclusive design.

### JACEE HAMMONS

*Lead Designer at Firm*

**J**acee is a recent graduate from the University of Idaho with a Master's of Architecture. Prior to attending the University of Idaho, she attended Utah State University and received her bachelor's degree in Interior Architecture and Design. She is a lead designer at her current firm and helps with all phases of design and construction.

Jacee is an artist at heart and looks for architectural connections across related realms, such as architectural score and musical notation, and believes in the connection between the hand, the mind, and the heart. Her work has received numerous national and international design awards.

### MASON KEENER, ASSOC. AIA

*Design Staff, Williams Partners Architects | Ketchum, ID*

**A**fter finishing his Bachelor of Architecture at the Fay Jones School of Architecture and Design, Mason wanted to pursue work outside of his home state of Arkansas with hopes to gain experience in design in unfamiliar regions. Mason currently works with Williams Partners Architects in Ketchum, Idaho as a design staff member with an increasing role in project management. As he gains professional experience, Mason is also testing for

his Idaho architectural license. In his undergraduate, Mason was awarded the BTES Edward Allen Award and the ARCC King Medal for his research in material reuse within adaptive reuse projects. His passion for “logical sustainability” is what drove his research, and he hopes to pursue this idea further in his professional career and grad school.

# FEATURED SPEAKERS

## DAMON LEVERETT

*AIA, NOMA*

**A**IA Arizona President in 2023 and recipient of the 2024 AIA Arizona Architect's Medal, Damon Leverett, AIA, is a dedicated architect, educator, and technologist, who advances architecture and society by transcending traditional disciplinary boundaries through influential engagements in artificial intelligence, advocating for a more diverse profession, institute leadership, and educating future architects. He is author of Light Engineers and Other Architectural Experiments, which

documents a series of art and design projects, completed over a period of 10 years, exploring ideas about the role of art in architectural practice and the values of the design process.

## JULIAN LINEHAM

*PE, FSEI, FASCE, CEng, FICE*

**J**ulian is founding principal of Studio NYL. A 2017 Fellow of the UK's Institution of Civil Engineers (ICE), and a 2018 Fellow of both the Structural Engineering Institute (SEI) and the American Society of Civil Engineers (ASCE), Julian is licensed in 38 states and the District of Columbia, and a Chartered Engineer (CE) in England. Julian has a truly holistic view of how to put all aspects of a building together and is pas-

sionate about high-end design and solving complex challenges. His breadth and depth of expertise in technologies and strategies used around the world make his work unconventional and exciting. His projects include Microsoft's UK headquarters campus and the new British Embassy in Oman. He is a guest lecturer at the University of Colorado at Boulder and Denver, Boston Architectural College, and the American University of Sharjah, UAE.

## ADAM WAGONER

*AIA*

**T**he 2024 AIA Colorado Architect of the Year, Adam is deeply committed to design and fostering community. Through his podcast ARCHITECT-ING he has spotlighted the stories of local and regional designers and through this has sparked many connections. With CU Denver College of Architecture & Planning, he engages with students to foster the next generation of designers. As a practitioner, he contributes to Colorado's built environment through projects with various types and scales.
