

AIA Idaho Professional Affiliate Membership Information

Professional Affiliate membership is available to individuals who are not otherwise eligible for membership in The American Institute of Architects. It is a state and local membership similar to the national AIA Individual Professional Affiliate membership. Professional Affiliate members share the same programs, services and activities as AIA Architect and Associate AIA members. "Share" is the key word because, as a Professional Affiliate member, you will learn from architects as much as they will learn from you about your services and industry.
