

BASIC FIREARMS SAFETY AND HANDLING

\$75 per person, open to all ages

A 90-minute entry-level course designed to teach:

Basic Firearms Safety Rules

Safe Storage Laws

Legal Aspects of Firearms Ownership and Using Lethal Force

Firearms Nomenclature

Basic Shooting Techniques/Marksmanship

You will learn from a 32-year law enforcement veteran and a California certified firearms instructor. We use real Glock 17 and M&P 9mm firearms that have been adapted to a virtual shooting environment.

Once you master the basics of safely handling a firearm, you will put your newly acquired skills to the test utilizing our state-of-the-art MILO video firearms shooting system. You will shoot stationary targets, moving targets, and maybe even a Zombie or two! You will also be immersed in realistic shoot-don't shoot scenarios similar to those our law enforcement professionals face daily.

At the conclusion of this training, you will be better prepared to move on to a live-fire range to further your mastery of safely handling and operating a firearm.

To schedule your training, please call (310) 987-3332. Classes forming now!
