Watercolor Detailing ---

Miscellaneous

Total: -----

## About

I am Molly Ray, creator of Mama Deer Birth Services where I serve families through Childbirth Education, Doula Support, and Placenta Encapsulation. I am a certified Encapsulation Specialist through Woman's Choice Perinatal Services and certified in Bloodborne Pathogen and Infection Control for Placenta Encapsulators through Biologix Solutions, and adhere to OSHA safety guidelines.

As your encapsulation specialist, after your baby is born I will pick up your placenta from you as soon as possible. I have a station in my home that is used exclusively for encapsulations where I will care for your placenta with the utmost respect and while holding to the highest safety and hygiene practices. When I am finished with my work I will contact you and deliver your package to you. I request up to 72 hours for encapsulations, however I typically am able to have your package back to you more quickly.

In the following forms you will find more details on the services I offer with encapsulations, and opportunities for you to provide direction and preference for how I can best serve you.

If there is anything you are interested in and do not see it here, please feel welcome to reach out. I am happy to accommodate you if it is within my skill set and ability. (Additional fees may apply to cover supply costs and time.)

## Payment

I require a \$50 deposit that goes towards your total fee at the time the contract is signed or by 36 weeks. Please see the contract for full details.  
**Payments may be made by cash, check made out to Molly Ray, or by Venmo @Molly-Ray-19 or using my email: Mamadeerbirthservices@gmail.com**

I offer a sliding scale on the base package for placenta encapsulation. I strongly believe that encapsulation can be helpful to families postpartum, and I wish to be able to offer my services at an affordable rate so that this may be accessible to everyone. I have a heart to serve families regardless of their socioeconomic status. Please feel free to pay whatever you feel able to within the above listed range.

I will never ask about your income, or ask you about the reason behind your selected fee. Feel welcome to reach out if you have any further questions.

Thank you.

# Basic Package

When you book a basic package here is what you can expect to receive: Capsules, tincture, A placenta salve, a cord keepsake and a print of your placenta, and a short report from me about your placenta.

**Capsules:** Typically a placenta will create 100-200 capsules. This varies depending on the size, and if it was steamed or not. Steaming helps kill bacteria and is necessary if mom has Group B Strep (GBS) or if the baby passed a bowel movement before birth (meconium) or with a placenta that is more than 24 hours old. However steaming does render fewer capsules, and may reduce some of the beneficial properties.

Please select below if you would like your placenta unsteamed, steamed, or steamed with lemon and ginger. If you select unsteamed, please then select an option for steaming as well so I will know how to best proceed if a situation unexpectedly arises where steaming becomes necessary.

Not Steamed

Steamed

Steamed with Lemon and Ginger

**Tinctures:** Tinctures are made infused with your placenta. They will not be ready for use until six weeks after they are created, but provide the benefits of placenta capsules for a lifetime. Some women will even save and use them during menopause.

**Salve:** You will receive one jar of salve that you can use for cesarean scars, perineal tears, hemorrhoids, diaper rash, etc. It is made with your placenta as well, as to capture some of the healing properties found in the stem cells in your placenta.

**Cord Keepsake:** The umbilical cord will be shaped into a design of your choice, and dried to preserve it for years to come. Common designs include hearts or short words such as "LOVE." Please use the space below for any direction for your cord keepsake. (please note that some designs may not be possible for short cords.)

---

---

**Placenta Print:** I will make a print of your placenta to capture the unique image keepsake. I use food based dyes to make these. Please note that the cord keepsake will often take on the color of these prints as well. Use the space below to list the color or colors you would like used in your print:

# Additional Services

## Special Directions:

Please use this space to specify any special requests or information. If you want an adjustment to the standard products please let me know so I can better serve you. Examples: Vegan capsules. Flavored Capsules, any nut allergies (to avoid any possible allergens in the salves), etc.

To accommodate for shipping time if you have special requests please let me know as soon as possible in case I need to order supplies.

**Price of services may change to reflect adjustments. (Miscellaneous Charge)**

---

---

---

## Chocolates

You may add placenta chocolates to your package. Milk chocolate, dark chocolate, and white chocolate are available.

Type of Chocolate: \_\_\_\_\_

**Cost: \$15 per dozen.**

## Placenta Cast

A cast of your placenta is a detailed, life sized keepsake. A mold is made with non toxic materials. The casting material is white, but it may be dyed if you would like. White casts may have discoloration from blood that can come off of the placenta in the process. Dyed casts may adjust in color over the next couple days as the cast continues to dry.

Color: \_\_\_\_\_

**Cost: \$70**

## Placenta Charm

This is a resin charm made with dried particles of your placenta. It is a one of a kind charm that can be worn as jewelry, or kept as a keepsake.

Color can be added also. Please note any color you would like, or if you would like the charm left clear: \_\_\_\_\_

**Cost: \$30**

**\$5 per each additional charm.**

## Placenta Rings

Similar to necklace charms, rings can be made as a memento. There are currently three rings available.

Sterling Silver Band With a Teardrop Stone

**Price: \$80**

Sterling Silver Inlaid Band

**Price \$95**

Stainless Steel Inlaid Band

**Price \$90**

## Watercolor Detailing

Watercolor detailing is an option to add color and character to your placenta print. The painting is done by hand, and may take extra time to complete. If it is delayed it will be mailed to you.

Please use the space below if you have any requests for colors or details you would like included. I will do my best to fulfill these requests within my skill level:

**Cost: \$50 Per Watercolor Print**

# Additional Services

## If Your Placenta Cannot Be Encapsulated

Under some circumstances a placenta is not safe for consumption (infection, for instance) While this can be an upsetting circumstance, it does not mean that all is lost. Prints and cord keepsakes can still be made as normal. A mold and charm can be made for no additional charge.

Your placenta can either be returned to you whole, and you will be responsible for proper disposal (This may be planting it with a tree, or responsible biohazard disposal), or it can be dehydrated and turned into a powder form. You may choose to have your dehydrated placenta returned to you as a whole, or have it planted in a houseplant before its return.

Preferences for a Placenta That Cannot Be Encapsulated (Check all that apply):

- Print
- Cord Keepsake
- Cast
- Charm
- Return in Whole
- Return Dehydrated
- Return in a Plant

## Pictures or Videos

Would you be comfortable with me sharing photos or videos of your placenta on social media or my website?

Please note, no personal information will ever be shared.

Yes / No

## Invoice

Would you like an invoice for your placenta encapsulation?

Yes / No
