# Welcome to the 2025 PARADE of homes

Welcome to the 2025 Golden Sands Home Builders Fall Parade of Homes. This year we are featuring 12 homes built by 10 of our premier central Wisconsin home builders.

The craftsmanship showcased by our builders, and variety of styles should be sure to inspire you for your next projects. Whether you're looking for a builder to renovate your current home or need someone to create the new home of your dreams, this is the perfect opportunity to meet a GSHBA builder to help turn your dreams into reality.

We would also like to thank all the builders, sponsors, associate members, and the homeowners that allowed their house to be included in this year's Parade of Homes. We hope you enjoy this year's 2025 Fall Parade of Homes.

Rob Erbes  
Erbes Construction Ltd  
GSHBA 2025 Fall Parade of Homes  
Chairman

- Six en suites all with custom tile showers
- Four fireplaces
- Painted trim and crown molding
- Custom exterior cedar posts and beams

Our story starts in the mid 1970's when Ed Bergman decided to put his love for building things to work full time as a home builder in Stevens Point. After working along side his dad for over 20 years, Kurt took over the reins in 2005. We have designed and built hundreds of homes in Central Wisconsin over the 50 years we have been in business. We have a great group of highly skilled employees including our son, Jeremy, who provide the attention to detail our homes are known for. We look forward to continuing Ed's philosophy of high quality building with our 3rd generation!

## When Local Matters Most

You know those times when you just need help from a real person, not a chatbot? Buying a house is one of those times. When you choose a local community bank, you work with a banker who works and lives here too. They understand the local market and have relationships with local realtors. Nicolet Bank also offers a stronger preapproval process, showing a solid preapproval to sellers. Get started with a local expert, in person or online, and be ready to close the deal.

We all know real estate is about location, so when you find the perfect spot to build your dream home, sometimes you need to tear down an existing home. That's what happened here. In the end, we created a traditional, yet modern home that is sure to impress, while taking advantage of Lake Sherwood views from every window possible. This well designed 2-story home has a lot to offer in a smaller footprint. From the huge windows, 2-story height beamed ceiling, dream kitchen, main floor primary suite, sauna, and catwalk, we are excited to show you what is possible.

SnowBelt Fireplace & Stove Shop has been serving Central Wisconsin for over 20 years. We specialize in stoves and fireplaces that add beauty, comfort and value to your home or business. We have styles from classic to contemporary on display. We invite you in to visit our showroom in Stevens Point where we feature over 100 fireplaces and stoves on display. Many of these displays are in finished home like settings.

Our professional friendly staff will guide you through the selection and finished design process to find the perfect fireplace for your home and your style. We can take your design ideas and construct a computer generated image of the finished fireplace including the stone and mantel work. We offer both cash and carry, full service installations, and provide full service on gas and wood fireplaces.

Whether you are building a new home, remodeling, or replacing an existing system SnowBelt Fireplace has the expertise and experience to find the perfect fit for your style. We invite you to come speak with the fireplace experts at SnowBelt Fireplace who will provide friendly professional advice and service. Or find us on the web at [Snowbeltfp.com](http://Snowbeltfp.com).

1101 Huffman Rd., WI Rapids

2 Bedrooms • 2 Bathrooms • 1790 Sq. Ft.

### Home Features

Some clients know exactly what they want. In this case, our client came to us with a plan in place, and most of his fixtures and finishes were already chosen. After purchasing his lot a couple years ago, he designed the house to take advantage of the river views and maximize the space on this corner lot. The modern design inside and out makes this home unique, while offering just under 1800 square feet of well thought out living space, specifically designed to fit his lifestyle. From the wide open floor plan, soaring high ceilings, primary suite, and other unique features, we are proud to showcase this one of a kind home.

Erbes Construction Ltd is a family owned business that features quality in-house design. We have an office showroom for your convenience and staff available to help you through each step of the building process from designing, drafting, 3-D presentation, product selecting & interior décor for both new construction and renovations. We also offer full Real Estate Services.

We're happy for this opportunity to tell you about our Home Construction Company.

Building a home is undoubtedly one of the more important personal and financial commitments you'll make in your life. Yet, it's a decision you 'll make with relatively little experience to guide you. You will probably to talk with other builders, compare bids without knowing quality and budgets; and, if services are equal, read articles, talk with friends, lenders, etc. But when the day of decision comes, more than likely your instincts will be your primary guide. With these facts clearly in mind from the initial meeting with our customers, we try to make the decision making process easier with good communication and product presentation, detailed drawings, and clear, concise inclusive estimates. We want our customers to know they are getting a lot for their money and the key to achieving this is that we are very efficient at every step of the construction process. Quality home construction today requires ongoing evaluation and incorporation of everchanging building materials and techniques.

Our goal is to make your home building experience an enjoyable and rewarding one that not only makes you a very satisfied and happy customer, but a friend to our business as well.

HOME 6

HOME 7

985 Morning Star Lane, Plover

2 Bedrooms • 2 Bathrooms • 1,373 Sq. Ft.

#### Home Features

Discover effortless living in the Hudson Twin Home by Denyon Homes, a thoughtfully designed zero-lot-line residence offering 1,373 square feet of well-appointed main-level space. This 2-bedroom, 2-bath home features an open-concept layout with vaulted ceilings, a cozy gas fireplace, and a modern kitchen complete with soft-close cabinetry, an island, and included appliances. The owner's suite boasts a private bath and walk-in closet, while the main-floor laundry adds everyday convenience. Enjoy outdoor living with a covered lanai and landscaped yard—no HOA fees required. The attached two-car garage and no-step entry (grade dependent) ensure accessibility and comfort. With a lower level ready for future expansion, including framing and plumbing for a third bedroom, family room, and bathroom, the Hudson offers flexibility for growing needs. Complete with central air, gutters, and blacktop driveway, this home blends quality craftsmanship with low maintenance living in the heart of Plover.

## BE READY WHEN THE POWER GOES OUT

### WHY MORE HOMEOWNERS ARE INVESTING IN BACKUP POWER

Let's face it – modern life doesn't pause just because the power goes out. Whether it's a summer storm, winter ice, or an aging electrical grid, outages are becoming more frequent and more disruptive across the country. Today's homes rely on consistent power for everything from food storage and climate control to remote work and medical needs. With so much of daily life dependent on electricity, it's no surprise that more homeowners are preparing with backup power.

The peace of mind that comes from knowing your lights will stay on – and your home will stay safe and comfortable – is no longer just a luxury. It's becoming a necessity.

#### WHY BACKUP POWER IS ON THE RISE

Severe weather events are happening more often and lasting longer. Power grid failures – once rare – are now making national headlines. For many, that's all the motivation needed to take action. In fact, industry analysts report ongoing growth in the residential generator market, and experts say the trend isn't slowing down anytime soon.

"People aren't just reacting to outages – they're planning ahead," said Jesse Adams, president of Adams, a leading installer of backup power systems in Wisconsin and Illinois. "Whether they've experienced a multi-day blackout or just want the peace of mind that comes from being prepared, we're seeing more homeowners make backup power a priority."

#### WHAT ARE YOUR OPTIONS?

There are a few different types of backup power systems to consider, ranging from small portable generators to fully automatic home standby systems, which are approximately the size of an air conditioning unit. Permanently installed outside your home, home standby generators connect directly to your existing natural gas or liquid propane supply and turn on automatically within

seconds of an outage. These systems can power essentials like your furnace, AC, sump pump, and refrigerator – or your whole home, depending on the size of the unit.

Many home standby generators can even be managed from your smartphone, giving you visibility and control no matter where you are.

#### THINKING ABOUT A FUTURE HOME? PLAN AHEAD.

If you're in the process of building or planning your dream home, it's the perfect time to consider backup power. Installation is simpler and more cost effective when done during the building process, and you'll have more flexibility to choose where the unit goes and how much of your home you want to power.

#### A SMART INVESTMENT

Adding a home standby generator not only improves your quality of life during outages, it can also increase your home's value. In a competitive real estate market, features like backup power can be a compelling selling point, especially for families who work from home or have aging loved ones in their care.

"More new builds are including backup power as a standard feature," added Adams. "It's not just about comfort anymore; it's about resilience. Homeowners want solutions that protect their investment and keep life running, no matter what."

#### IT'S ABOUT MORE THAN JUST POWER

At the end of the day, backup power is about control, peace of mind, and a sense of security. It's about knowing that when the unexpected happens, your home will continue to provide comfort, convenience, and, most importantly, safety for your family – so you can stay safe and continue enjoying all the conveniences of home.

In today's world, that kind of security is priceless.

### IS A HOME STANDBY GENERATOR RIGHT FOR YOU?

Wondering if backup power is worth the investment? Consider these questions:

- **Do you live in an area with frequent storms, snow, or power outages?** If yes, a generator can save you from repeated disruptions.
- **Do you work from home or rely on powered medical equipment?** If so, consistent electricity isn't optional – it's essential.
- **Do you have a finished basement or rely on a sump pump?** Losing power during heavy rain could lead to thousands of dollars in water damage.
- **Do you have a second home, rental, or vacation property?** A backup generator helps ensure the property stays protected, even when you're not there.
- **Are you planning to make this home your forever home?** Generators are a key safety feature for older adults who may want the convenience of having a fully automated system.

If you answered "yes" to even one of these questions, it might be time to look into a backup power solution.

## ADAMS: THE REGIONAL LEADER IN HOME STANDBY GENERATOR INSTALLATION

Adams is proud to be the leading installer of home standby generators, helping homeowners stay safe, connected, and protected when the power goes out. For more than 35 years, Adams – a family-founded and locally operated company – has built its reputation on expert installation, quality service, and long-term customer satisfaction. Today, Adams is the #1-rated Generac dealer in Wisconsin and Illinois, trusted by thousands of homeowners across the region for delivering dependable, turnkey backup power solutions.

As power outages become more frequent, more families are turning to reliable backup power systems to safeguard their home. "People want the peace of mind that comes from knowing their home will stay powered – no matter what," said Jesse Adams, president of Adams.

Adams provides full-service installation of Generac home standby generators, managing every step – from sales and permitting to final inspection. All work is completed by Generac-certified, factory-trained technicians who are part of the Adams team.

As a key differentiator, Adams is the first and only installer in the region to offer a lifetime warranty on all home standby generator installations. The company also provides 24/7 emergency support, proactive maintenance plans, and remote monitoring through Generac's Mobile Link.

Proud to be featured in this year's Parade of Homes, Adams invites you to explore how backup power can protect your home – season after season.

DESIGN THEORY 19

Residential + Commercial

*Designing Dreams  
Building Reality*

### *Mission*

At our core, we believe that a well-designed space has the power to transform not just the physical environment but also the people who inhabit it. As interior designers, we strive to create spaces that are not just beautiful but also functional, comfortable, and reflective of our client's unique personalities and lifestyles.

Our mission is to help our clients create homes that they truly love and that bring them joy and peace every time they walk through the door.

— Brad & Jessica Schmidt Plover (2019)

Our experience working with Mindy and her staff has been nothing short of exceptional! They are prompt, professional, very creative and respectfully mindful of our budget. They do a thorough job presenting options across all price points, and offer recommendations and opinions without pressure. They make on-site visits and are very flexible with scheduling and meeting times. They have relationships with a diverse network of vendors, and prefer to use local businesses which we appreciate.

They also offer 3-D renderings, which is often difficult to find with an interior design firm. This is a great service as it allowed us to easily see how different options such as window styles, door features, exterior materials and color palettes would look for our new construction and remodeled areas.

Mindy and her staff are extremely personable, courteous and very prompt in answering questions and providing project updates. Highly recommend!
