

Invitation: National Hybrid Learning & Digital Transformation Readiness Program for Schools

Dear Principal / School Leadership Team,

Greetings from [Tech Avant Garde](#), a Global Training Partner of [Microsoft Education](#).

In light of the current global uncertainties and the Government of India's increasing emphasis on fuel conservation, hybrid work models, digital continuity, and operational preparedness during disruption scenarios, educational institutions across India are now required to strengthen their digital readiness and continuity systems.

Schools today must be prepared to continue uninterrupted learning, staff collaboration, administration, and communication — even during emergency or disruption situations.

To support this national preparedness initiative, Tech Avant Garde is launching the:

National Hybrid Learning & Digital Transformation Readiness Program for Schools – 2026

This special initiative is designed for ICSE, CBSE, and progressive K12 institutions that wish to build a future-ready, disruption-resilient learning ecosystem.

What the Program Includes

1. Dedicated Training LMS Access

Participating schools will receive access to a dedicated LMS platform exclusively for:

- Stakeholder training delivery
- Certification modules
- Learning progress tracking
- Program assessments
- Resource access during the certification journey

Note:

This LMS access is provided only for the training and certification process under this program. It is not intended for the school's independent classroom operations or internal academic delivery.

Schools can independently conduct their own online and hybrid classes using Microsoft Teams and the Microsoft Education ecosystem provided through the program.

Additionally, schools interested in implementing a separate enterprise LMS for their own institutional use may opt for it as an independent package after consultation.

2. Microsoft License Package Included

Each participating school will receive:

- Microsoft Student & Faculty Licenses
- Access to Microsoft-powered productivity and collaboration ecosystem
- Secure cloud-enabled communication and hybrid learning environment

3. Specialized Stakeholder Training Modules

IT Department Certification Track (6 Modules)

Focused on:

- Hybrid classroom infrastructure
- School cybersecurity readiness
- Microsoft ecosystem administration
- Device and access management
- Digital continuity planning
- Secure digital operations for schools

Principal Leadership Certification Track (5 Modules)

Focused on:

- AI-assisted decision making
- School digital transformation frameworks
- Data-driven leadership
- Crisis continuity planning
- Hybrid learning policy implementation

Teacher Certification Track (10 Modules)

Focused on:

- Online & hybrid classroom pedagogy
- Microsoft Teams classroom delivery
- AI-enabled teaching workflows
- Student engagement techniques
- Digital assessment strategies
- Collaborative learning practices

4. Student Onboarding Bootcamp

Special onboarding sessions for students (Grade 8 onwards) to help them:

- Understand hybrid learning systems

- Use Microsoft digital tools effectively
- Participate in collaborative digital classrooms

Certification Outcome

Within 45 days, participating schools can achieve:

- ✓ Hybrid Ready School Certification
- ✓ Trained IT & Digital Operations Team
- ✓ Certified Digital Educators
- ✓ Microsoft-enabled Learning Environment
- ✓ Preparedness for Disruption & Continuity Scenarios

Program Fee

The complete bundled program including:

- Stakeholder Training Access
- Certification Pathways
- Microsoft License Package
- Orientation Sessions
- Digital Transformation Support

is being offered at:

Program Model	Eligible School Size	Annual Program Fee
DTHL-P1	Schools with student strength below 500	₹1,20,000 + Taxes
DTHL-P2	Schools with student strength up to 1500	₹1,80,000 + Taxes
DTHL-P3	Schools with student strength above 2000	₹2,80,000 + Taxes

Limited National Intake

To ensure quality onboarding and implementation support, only **250 schools** will be onboarded in this phase.

Important Dates

- Registration Window: Till 30th May 2026
- National Orientation Program: 6th June 2026
- Training & Certification Activation: Immediately after onboarding

During the orientation session, participating schools will receive:

- Program demonstration
- Hybrid classroom implementation roadmap

- IT deployment guidance
- Deliverables walkthrough
- Documentation & onboarding instructions

Following orientation:

- Schools can complete online registration
- Download agreements
- Complete digital onboarding
- Activate learning journeys for all stakeholders

Expression of Interest

Schools interested in participating are requested to complete the registration form at the earliest, as seats are limited and onboarding will be conducted on a first-confirmed basis.

[National Hybrid Learning and Digital Transformation Readiness Program - Registration – Fill out form](#)

Together, let us build resilient, digitally empowered, and future-ready schools aligned with the vision of modern India.

Warm Regards,

Training & Digital Transformation Team
