## About Navy League Cadets

The Navy League of Canada was founded in 1895 with a mandate to promote Maritime Affairs throughout Canada. Today we have a presence in over 230 communities and support approximately 10,000 young Canadians in the largest maritime-themed youth programmes in the country: Royal Canadian Sea Cadets and Navy League Cadets.

We have strong connections to the federal government and within communities to ensure that we are the most effective advocate for Maritime Affairs within Canada.

## Maritime Affairs

The Navy League of Canada maintains an abiding interest in the prosperity of Canada's agricultural, industrial, and business sectors, in generating economic expansion as facilitated by good marine transportation, maritime safety and protection, and port facilities, as well as contributing to the assurance that we will always have a strong and ready Coast Guard and a relevant and sustainable Navy to watch over our maritime interests.

## Navy League Cadets

The Navy League Cadet programme is available to youth aged 9-12. Navy League Cadets participate in fun community based activities such as band, camping, community tours, and sports. Unlike Sea Cadets, the Navy League Cadet programme is entirely led and run by civilian volunteers, and introduces young Canadians to the Cadet programmes offered to youth aged 12-18.

## Volunteer Opportunities

The Navy League of Canada not only offers exciting opportunities for youth, but we also have a wide range of volunteer opportunities for adults. Whether you enjoy teaching and working with youth, or would like to develop your management skills as a member of your local Branch, The Navy League of Canada is happy to welcome you to our community and find a suitable volunteer position for you.

## Sea Cadets

The Royal Canadian Sea Cadet programme is delivered in partnership with DND and is available to youth aged 12-18. Cadets can learn about Sailing, Power boating, Marksmanship and Music, and can be selected for Summer Camps and International Exchanges!
