

ENERGIE

EQUIDIET[®]
Equine Nutrition *Specialists*

Supplement with high content of fat.

PRODUCTS INSIDE **Alltech**[®]

BENEFITS

- Increases muscle development (natural anabolic).
- Prevents intestinal pathologies (colics, laminitis).
- Lowers heart rate.
- Reduces recovery time.
- Better resistance.
- Tempers over-excitement.
- Healthy and shiny coat.
- Prevents cramps/underrun heels.

FEEDING INSTRUCTIONS

Replace 1 or 2 kg of feed, adjusted to the energy requirements, mixed with ordinary ration.*

* Adjustments to feed intake should be based on body weight, condition and activity of horse, as well as forage quality and availability. Consult your vet or nutritionist.

PACKAGING

Net Wt. 50 lb (22.7 kg)

COMPOSITION

GUARANTEED ANALYSIS AS FED	ADDED/KG	TECHNICAL FEATURE
Crude protein: 10% min.	Vit E: 200 mg	Net energy: 0,86 UFC
Crude fat: 14% min.	Selenium: 0,5 mg	Amino acids: 95 gr MADC
Crude fibre: 15% max.		
Moisture: 13% max.		
Calcium: 1,6% - 2,3%		
Phosphorus: 1,2% - 1,8%		

DESCRIPTION

Supplement with high content of fat that allows higher energy density without increasing starch content (cereals). It also prevents intestinal disease associated with excessive grain intake and shortage of bale. An essential complement for endurance and high performance horses (race, polo, rodeo, etc.).

ACTION

- High Energy formula preventing starch excess.
- **Immuno Stimulator factors:** fight oxidative stress and rise immunity (Vitamin E, Sel-Plex).
- **Nutrigenomics:** dietary substances influencing gen expression (Sel-Plex).
- **Natural anabolic factor (Gamma Oryzanol):** keep body condition optimum. The high fat supplement of rice bran increases the energy density of the ration and can replace part of the cereals, decreasing the starch supply and preventing laminitis, colics, acidosis, cramping and myopathy. It contains limestone for a right Ca/P balance, as rice bran is too rich in phosphorus. This formula provides:
- 2 fundamental nutrients for aerobic work: digestible fiber and fat.
- 2 antioxidants to fight the oxidative stress: Vitamin E and selenium, as selenium yeast (Sel-Plex).
- **Gamma Oryzanol:** natural body builder factor of the rice bran.
- Sodium chloride and potassium chloride to compensate electrolytes losses.
- Highly digestible and palatable unsaturated fatty acids to promote elastic skin and glossy hair coat.
