Cellular Services (Pty) Ltd

## FEATURES OF PREPAID RECHARGE

### Prepaid Recharges

Recharges can be done on our portal or through our APIs

### Bulk Recharges

Recharges can be done to individuals or in bulk to multiple recipients

### Multiple Recharges

Combinations of different types of bundles can be recharged at the same time, instantly or scheduled.

### Recharge Contacts

Contacts can be created or uploaded by file. Contacts can be managed as individuals or as groups. For corporates contacts can be private or public, and access controlled or isolated within departments. Contacts can also be imported from your Active Directory.

## FEATURES OF PREPAID RECHARGE

### Reports

Reports on account balance, Distribution list etc

### Schedule

Schedule recharges as once-off or on a recurring basis, to one or more recipients.

### Gateway & API's

Perform recharges directly from your pc, tablet, mobile, or enable your app or platform with our solution. Or contact us to get your own Recharge Gateway or for API access

### Flexible Usage

Access our Prepaid portal online, get a branded portal with your own look, integrate with our APIs, get your very own Prepaid Gateway.

### Many Integration Options

Prepaid enable your application with our web API (soap, rest, json, xml, and more), file integration, database integration, queue integration, or let us help you build a custom plug-in.

### One Platform

Prepaid messaging is just one of our abilities. Check out our offerings on SMS, MMS, Email, Number Lookup, and more.

### Enterprise Grade

Our in-house built solution, hardened over nearly two decades can handle any load with ease and reliability, and can be tailored to suit your specific need.

### International Standards

Our solutions are developed to international specifications and can operate anywhere in the world.

### Fully Auditability

Any and all activity or transactions through our solutions are fully traceable. With auditing at multiple points we can track and trace end-to-end.

### Built in-house

We own and operate every last inch of our platforms, so no delays by third parties and other vendors.

### Flexible Payment Terms

Pay as you go with a pre-paid account or talk to us about terms.

WHY OUR PRE-PAID RECHARGE?
