WHEEL BALANCERS

GENERAL REPAIR WHEEL BALANCERS

» Weight Correction

PREMIUM PERFORMANCE AT A REASONABLE PRICE

Even if tire service doesn't form the backbone of your business, you need a wheel balancer that can help your team handle them quickly and confidently whenever one rolls into the shop. Hofmann® geodyna® General Repair Wheel Balancers deliver precision performance in a compact footprint, with intuitive functionality, efficient data entry and intelligent ergonomics that make every job your team takes on more accurate, productive and precise.

MODELS

7100, 7200s, 7400L, 7400p

HIGH-VOLUME WHEEL BALANCERS

» Weight Correction
» Shape Assembly Run-Out

FOR HIGH-VOLUME SHOPS, SPECIALTY PERFORMANCE TO MATCH

If your business performs a large number of jobs on a regular basis, you need a wheel balancer that can streamline your process to help your team handle as many makes and models as possible with maximum speed and reliability. Hofmann® geodyna® High-Volume Wheel Balancers provide high throughput via assisted rim data entry, automatic rim width entry by sonar and short cycle times for faster, more accurate jobs from start to finish.

MODELS

7500s, 7500L, 7600L, 7600p

PREMIUM SERVICE WHEEL BALANCERS

» Weight Correction
» Shape Assembly Run-Out
» Defects (Flat Spots | Incorrect Bead Seating)

FULLY INTUITIVE, FULLY FEATURED, FULLY ADVANCED

When the core of your tire service business comes from the newest makes and models, you need a wheel balancer that can help your team achieve repeatable precision with maximum reliability at minimum effort. Hofmann® geodyna® Premium Service Wheel Balancers feature automatic data entry and balancing mode selection via scanner and smartSonar™, with touchscreen user interfaces for faster, more intuitive setup and the ultimate in accuracy and performance.
