# ALEXANDRA STARK

Alexandra "Alee Rose" Stark is a New York City based, multi-faceted content creator with passionate experience in editorial, fashion and product photography. Originally from San Diego, California, Alee has worked professionally on both coasts for over 5 years. Her love of visual arts began at a young age and blossomed into a career in Cosmetology. Alee's passion for creative direction, styling, and hair and makeup shines through in her photography. Alee's photography has been published in

CR Fashion Book, Lookbook Paris Magazine, Off the Rails Magazine, Inked Magazine, Vogue Italia and Arsenic Magazine.

During the summer of 2019, she started a passion project stemming from an inspirational body of work and soon after transformed into a greater venture to help others in need, "The Unveiled".

# MIKAYLA GROWICK

Mikayla Growick's passion in life is not putting pencils or paint onto paper; It is found within expression and using art as a way to bring people together by translating the experiences of life in an intentional, aesthetic way.

Mikayla's art is ever evolving but will always have this rooted in its foundation: we as humans are better together. Connection fuels ideas, dreams, empathy and growth. The more you connect with others the better you can connect to yourself and even find pieces you never knew you embodied within.

Mikayla currently combines techniques with a variety of mediums ranging from charcoal sketches, oil fine art paintings, and murals. Her next goal is to venture into incorporating stories, writings, and poetry into visual art more than ever before.

# CAT LALLIER "SIEP"

Cat is a studio painter & muralist who aims to show the world the meaning behind the moniker- that Something Extraordinary Is Possible for each and every one of us.

Cat works primarily with oil, acrylic, and aerosol paints to create colorful and surreal imagery. She lives in her own world and creates art to show others what that place looks like. A jack of all mediums, she creates jewelry, clothing, and decor as well. She is an extremely collaborative artist, who believes that the most extraordinary things are created when working together.

Cat was born and raised in rural Delaware, living in a small town with very little room for artistic growth. Seeking change and inspiration, she left Delaware and traveled around the country, body painting at festivals and events. She has since moved from body to canvas and has been afforded the opportunity to showcase her work at many festivals and galleries. While doing this, she has developed her artistic style, and learned a lot about the way that art intersects with and enhances the entertainment world.

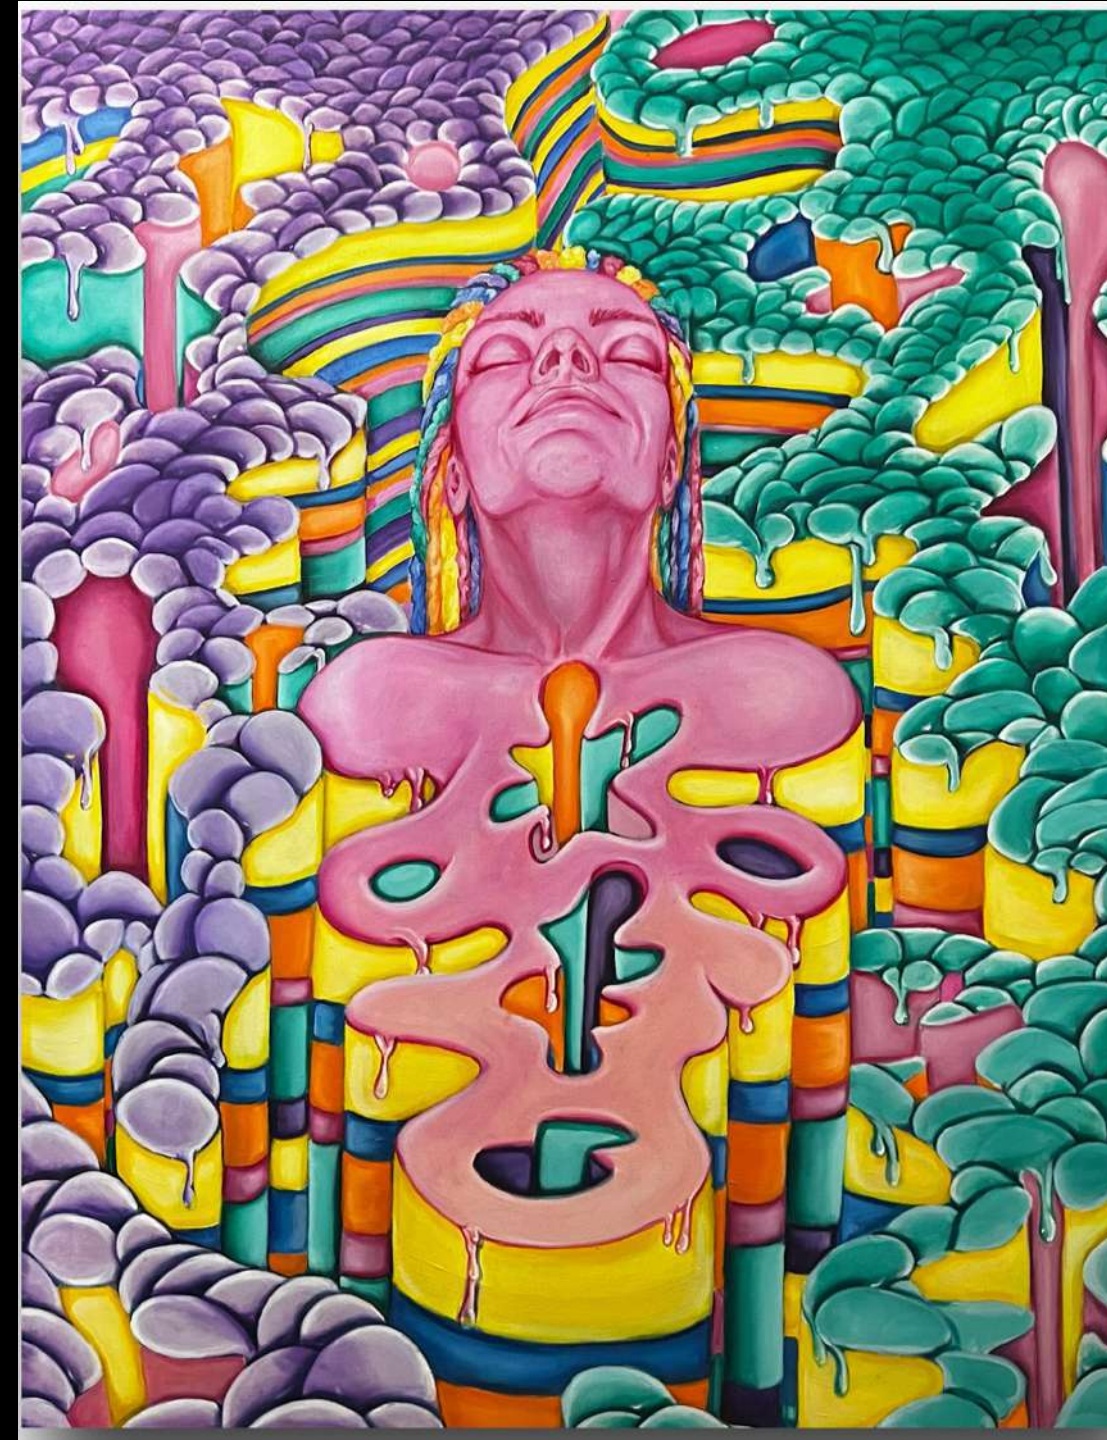

She spent time rooted in Philadelphia, PA, where she earned her degree in Psychology & Art for Intrapersonal Communication. This knowledge, in combination with her travels, the people she meets along the way, and, most importantly, her dreams, inspires & informs her current body of work. She is currently based out of Miami, FL.

# FLORENCIA CLEMENT DE GRANDPREY

Born and raised in southern Spain, I'm the daughter of an American mother and a French/Italian father, living and working in Fort Lauderdale, FL, since 2004.

I'm a self-taught mixed media artist, whose mission is to empower and inspire through positive and meaningful artwork. My artistic adventure began in late 2014, when I quit my full time job in interior design to pursue my real passion: painting.

Because I didn't receive any formal art training, I have developed a style without rules, which gives me great freedom. I combine my love of the classic masters with contemporary design flair to produce mixed media paintings.

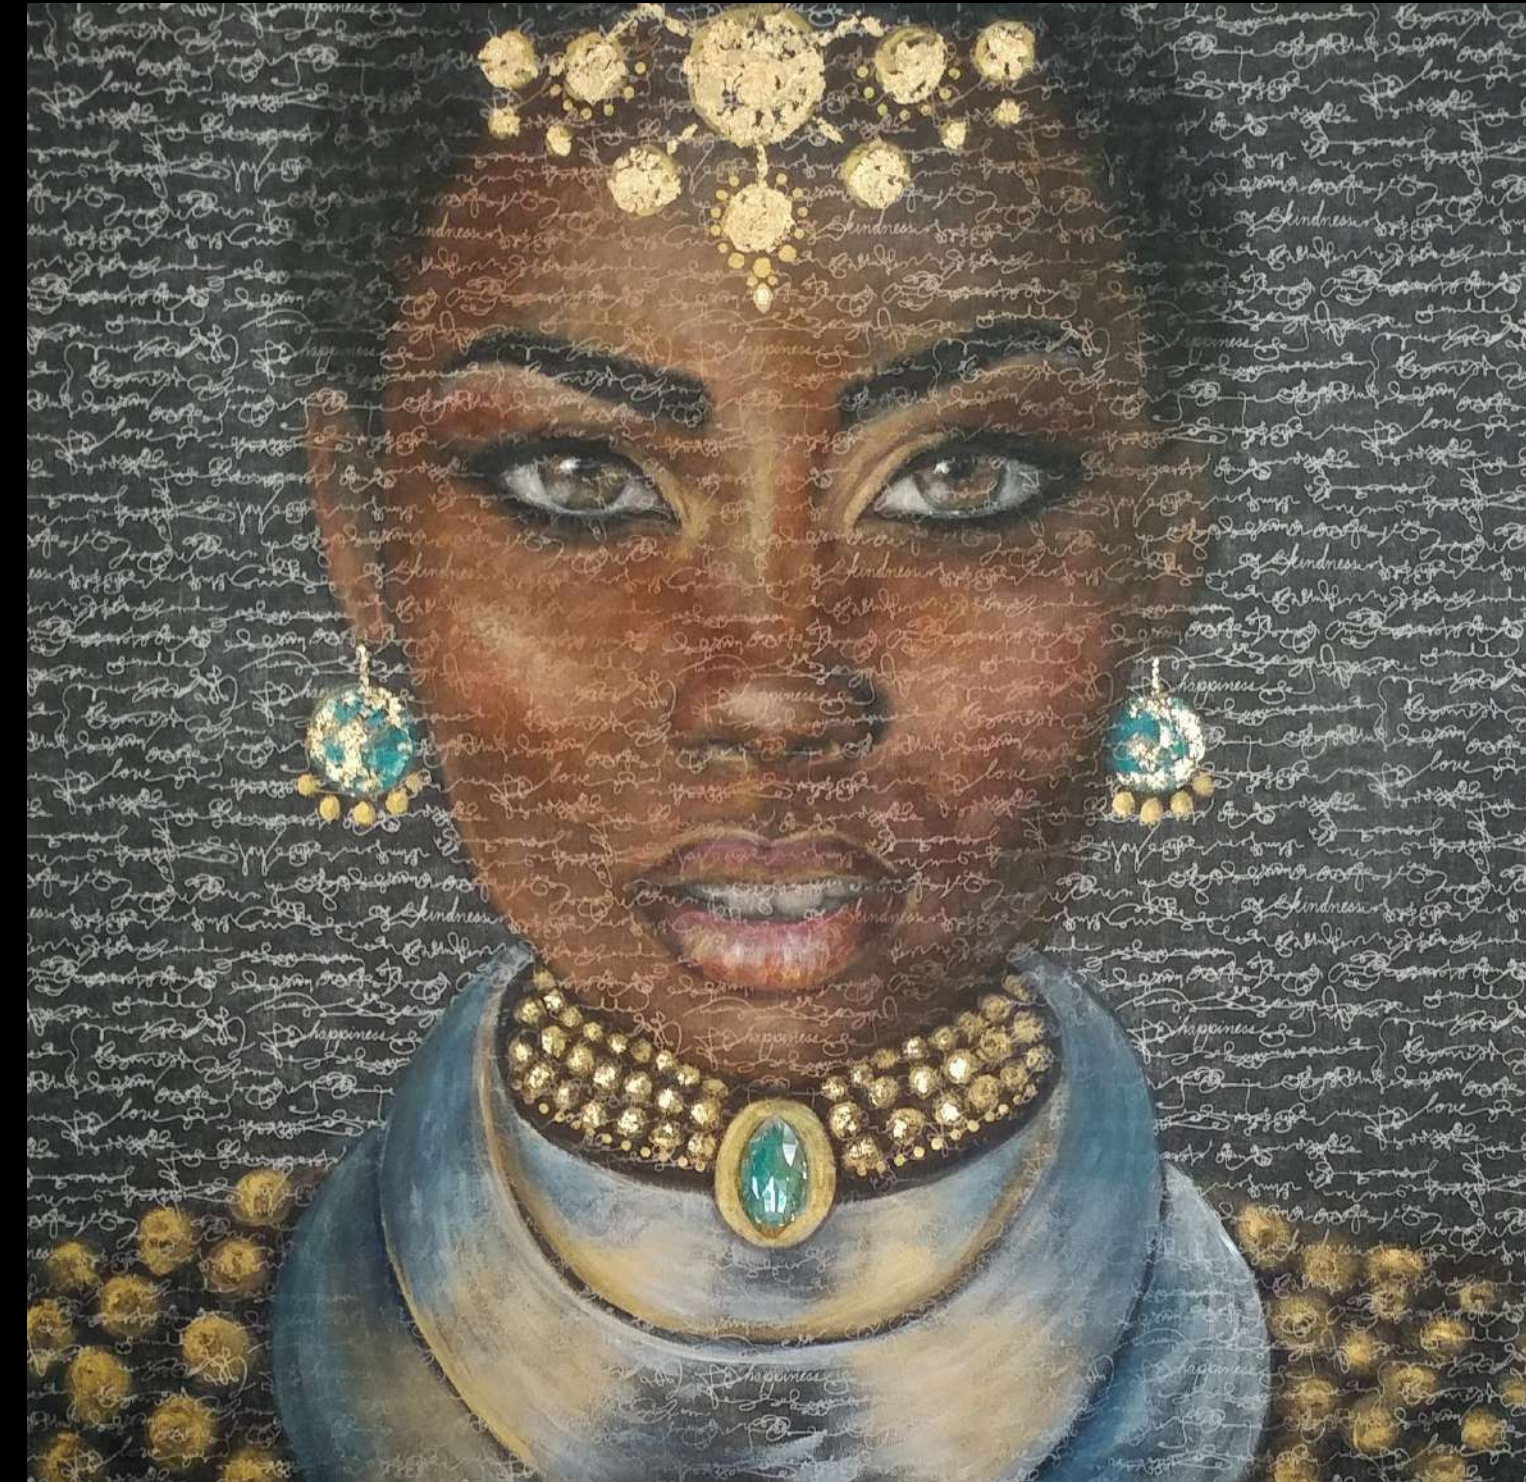

My style and media have definitely evolved over the last few years as I'm continuously exploring surfaces and materials...

Initially, I set out to paint on canvas and incorporated up-cycled and repurposed materials that would otherwise be disposed of, such as discontinued fabric and paper samples, to create backgrounds and "dress" my subjects. Three years into my adventure, I discovered I could paint directly on upholstery fabric and area rugs and have fallen in love with the effect I'm able to achieve in this new medium. The patterns become intertwined with the image and add yet another dimension to it. I find these layers are a metaphor for us to look deeper than what meets the eye.

At the heart of my artwork is my desire to portray strong and confident, soul aligned men and women. I want to celebrate who we are and everything that makes us unique, perfectly imperfect beings, by bringing out our strengths and our beauty; as a reminder of who we really are and to say "I see you and honor you".

# RUFINA MAGAFUROVA

Rufina Magafurova is a Russian Asian artist. She was born in Russia in the beautiful old city of Kazan. Rufina started crafting at a very early age. Because of the frequent lifestyle changes, Rufina was able to preserve memories of many different cultures and experiences.

Rufina Magafurova's artistic inspirations are larger-than-life like her flower installations. Rufina decorated the Hard Rock Hotel for their grand opening in Hollywood, FL, and created sunflowers for the 'Beyond Van Gogh: An immersive Experience' tour.

Over the last 3 years Rufina created custom flowers for the Fort Lauderdale Fashion Week, and in 2021 the multi-Grammy winner LIZZO featured Rufina's custom flowers during her extravagant Art Basel performance in Miami.

Impressed by Rufina's creation, the producers flew her to Las Vegas to recreate the same designs for LIZZO's New Year's performance. "It was the best feeling ever," Magafurova recalls.
