

- Sprinkler system - set during needed times & blown out before winter (We usually hire the same representative as the school to save money). Repair or replace sprinkler heads when needed and maintenance of the sprinkler system. Setting up and operate the ditch pump and sprinkler when needed. Put extra water on the new trees. Monitor if additional nutrients are needed.
- Maintain all street signs and replace when needed.

Winter:

- Keep the main roads clear and clean of snow. You are NOT responsible for people's driveways.
- Sprinkle sand/salt mixture when needed.
- Make sure the water meter holes are insulated to keep them from freezing.
- Make sure parking lot & doorway are clear (by shoveling & putting down rock salt when needed) at city hall for patrons.
