Dear Community Well Users:

The City Council of Dietrich, Idaho voted to go to alternate watering days. We need to show that we are trying to conserve water from the aquifer. The water curtailment issue was rescinded for this summer but will again be an item to contend with in the coming year. Although Dietrich has a senior water right, we also have a junior water right. Our junior water right was under curtailment for this summer. That means that we can only pump what our senior water right allows. By going to alternate water days we will be conserving water and demonstrating to the Spring Users that we are trying to help resolve the water issue.

Starting this month the addresses with even numbers should water on Monday, Wednesday, and Friday. Please no Sunday watering because of heavy household usage on this day.

Odd number addresses should water on Tuesday, Thursday and Saturday. Again please no Sunday watering because of heavier household usage.

Enclosed you will find the resolution passed by the city council at the meeting on July 9.

Thank you for your cooperation in this matter and your help in trying to resolve the water crisis.

Respectfully,  
Dietrich City Council
