

Advocate, empower, educate: Supporting the use of computer technology for online education from the home setting of 'Eua district.

Dr. Taniela Fusimalohi | 'Eua District Legislator

I endorse E2LC online education from home!

An online center will provide student with better access to educational opportunities and at the same time live close to their family.

Currently, students from the island of 'Eua will have to endure the problems of living away from family on the main island of Tongatapu to attend courses at educational institutions there, even if the courses are online. Your donation of a laptop will help empower higher education here at home on the island of 'Eua.

Fakafeta'i ma'u koloa!

Aiming to accept donation of 20 laptop computers. Please donate!
Please learn more about our 2025 project by visiting our website at www.e2lc.org

Mele Napa'a | Mother 'Eua student

I Endorse 'Eua Learning Center

"I have a daughter who wants to study but is unable to leave home to go to Tongatapu. There is no place there to stay and being away from my side is a risk. I love to support my daughter with her higher learning and it would great if she could do it from home so, I can help her with my own motherhood responsibilities.

Thus, the online center is a great opportunity for her to study and be at home." Your donation of a laptop will be a blessing for my family and my daughter's education endeavors.

Malo 'aupito!

Advocate, empower, educate: Supporting the use of computer technology for online education from the home setting of 'Eua district.

Daniel Cromwell Fusimalohi | Undergraduate Student from 'Eua

Endorsing 'Eua Learning Center

The Online Centre provides me with an opportunity to study, at a lower cost, while staying at home with my family. Using the internet to do my courses and research helps me to submit good quality assignments.

Besides that, I am able to stay home with my parents and friends on the island of 'Eua and still access the same data and information available to students in Australia, New Zealand, and the United States of America.

Your donation of a laptop would be much appreciated.

Malo e 'ofa moe tokoni!

Keni Takai | Student of Hofangahau College

Endorsing 'Eua Learning Center

In the future, more and more students will be able access educational opportunities through the online center. Parents will be happy to see their sons and daughters complete their higher education from 'Eua, our home island. Also, the parents can also have access to short courses on-line to improve their skills and knowledge.

This online center will be a blessing for me, my family, and my friends. All we need is the computer technology of which we do not have, but if you can donate a laptop, it will help me and my higher learning endeavors.

Malo e 'ofa moe tokoni!

Advocate, empower, educate: Supporting the use of computer technology for online education from the home setting of 'Eua district.

Samuela Faka'utoki | Dad of Girls at Hofangahau College

I endorse E2LC online education from home!

The online center solves the problem that young girls face when they live away from their family to attend educational institutions in the main island, especially alcohol, drugs and unwanted pregnancy.

I support my girls to further their higher education endeavors, but seeing them leaving our island and away from home is heart breaking. I understand, that's how life is; however, if you could help and donate a laptop so my girls can stay home and complete their schooling from home it would be much appreciated.

Malo mu'a ho'o mou 'ofa moe tokoni. 'Ofa atu!

Ahi Kaumataili | Student of Eua High School

Endorsing 'Eua Learning Center

It is encouraging to see the on-line center set up, as it will assist young students in pursuing their studies through the use of computer technology. They will have access to real-time data and information stored on the cloud computing and available on the Internet technology.

I, myself will be happy to stay at home on the island of 'Eua and still pursuing higher education from home where my parents and friends reside. Looking forward to see this project come into reality. So, please help!
