

Letter of Authority to Conduct NBN Preinstallations

This letter is to authorise **NBNPreinstal** (safetcam t/as NBN Preinstal) to act as the authorised representative for the builder or developer (detailed below) within the region of Sydney, Sth Coast, Newcastle Greater region, Goulburn and surrounding areas to perform NBN Preinstallations. Scope of works includes arranging & performing NBN Pre-installations at your nominated dwelling address.

Pre-installation consists of installing NBN equipment and activations prior to dwelling handover to your client. We will work with your project supervisor/s or site managers to ensure the correct preparation is completed, to NBN specifications and provide assistance during the building process to alleviate any potential issues which may arise.

This service is at **NO COST** to you, for single dwelling sites and provides you with the ability and confidence to hand over a home to your clients with active NBN equipment.

Why building with NBN makes sense

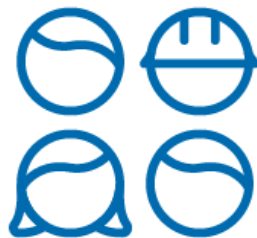

With more than 150 phone and internet providers offering plans over the **NBN** network*, help give your customers a choice of plans to suit their needs, while adding value to your own new development. This helps to ensure everyone enjoys the benefits of the network built to power future smart communities.

With **NBN**, you'll receive focused support, no matter where your projects are, from our dedicated team who have made more than 1.2 million new developments ready to connect nationwide.

There's a reason the nbn[®] network is made for more

80% of people are more confident about buying in a new development that is built with NBN connectivity

4 out of 5 of buyers expect an NBN connection in their new build
