

iPhone and Mobile devices with Harbor email

- Tap Settings > Accounts > Add Account > select Exchange
- Typically you just enter your email address, password and a description and click next to add the account.
- If you are prompted for more information use the settings below.

Server: outlook.office365.com

Domain: leave blank

Domain\User: full email address

User: full email address

Email: Full Email Address

Password: email password

Adding Harbor signature/ disclaimer to iPhone

1. Go into an old email with your signature on your phone and copy signature/ disclaimer portion
2. Settings > Mail; scroll to the bottom and select Signature

If you have multiple emails, make sure you select the correct business email (probably titled Exchange or Harbor).

3. Paste the previously copied signature and send yourself or Admin a test
