WE KNOW COLD

We understand that the customer defines quality. To consistently exceed customer expectations, we challenge our dedicated employees and loyal suppliers to continuous improvements of every product, process and service.

We promise to aggressively protect the reputation of RefrigiWear as the industry leader in quality.

QUALITY

Working in cold conditions requires a combination of personal protective equipment: a jacket and pants/bib for warmth; boots that won't slip on slick surfaces; base layers that wick away moisture; and gloves that protect your most important tools—your hands.

PERFORMANCE

Over 200,000 people wear RefrigiWear products to work every day. Plus, we have many thousands more that choose RefrigiWear for their everyday life because of our focus on comfort, quality and functionality in cold weather. When it's cold, being reliable and tough is what helps us give people peace of mind that they can be protected against the elements and continue doing what they enjoy doing.

RELIABILITY

Providing you with comfort and warmth is not just a part of our business plan – it is our reason to exist.

RefrigiWear garments have been put to the test in the harshest conditions since our founding in the mid-1950s, and we have never stopped developing new technologies and functional design to keep people warm ever since. Today, we are the most trusted name in a variety of markets for cold-environment protection.

WATERPROOF HIGH DEXTERITY GLOVES

Style 0283
\$25.00

Warmth is more than just insulation; it's also staying dry and flexible to promote circulation. The Insulated High Dexterity Glove features a Hydroguard waterproof barrier and wicking polypropylene lining to help keep your hands dry and warm. It also boasts a Neoprene and Spandex back to give your hands plenty of flexibility.

EXTREME SOFTSHELL JACKET

Style 0790
\$180.00

The Extreme Softshell Jacket from RefrigiWear takes keeping your warm to the "extreme." Comfort-rated to minus 60 degrees F (-60F), the jacket features a double front zip to regulate warmth, a reflective interior to trap warm air, an adjustable waist seal to combat drafts and over 500 total grams of insulating power - the ultimate winter and freezing environment jacket! Bonus features include 2 waterproof pockets, extending sleeves with inset thumbhole cuffs and reflective piping trim for enhanced visibility.
