

EAGLE RIVER TRAFFIC MITIGATION PHASE 1

MOA PM&E Project No. 11-16

PROJECT DESCRIPTION

The Municipality of Anchorage Project Management and Engineering (PM&E) Department, in collaboration with the Alaska Department of Transportation and Public Facilities (DOT&PF) and Eagle River Street Maintenance, proposes to improve motorized and non-motorized connectivity within the Central Business District, and safety and traffic flow along Old Glenn Highway, between Eagle River Road and the Artillery Road Interchange.

PROJECT GOALS

- Upgrade portions of Brooks Loop and Centerfield Drive to provide connectivity within the Central Business District
- Improve safety at the Artillery Road and Cross Drive intersection
- Improve the existing non-motorized access to Business Boulevard

KEY IMPROVEMENTS

- Reduce traffic conflicts at the Artillery Road Interchange and prevent cut-through traffic
- Provide safe reliable access to businesses north of the Old Glenn Highway
- Improve the stormwater drainage system along Centerfield Drive

PROJECT SCHEDULE

The following table identifies key milestones in the project and is subject to change.
