

Press Release: Mayhew Performance LTD. Announces Update in Leadership

SUDBURY, ONTARIO, September 25, 2023 – Global BEV consultancy Mayhew Performance LTD. (MPL) announced today that Vernon Cameron has decided to retire from his role as MPL President and CEO. Vernon is the owner of Corrosion Armor (Sudbury) and FSC Technologies (Florida) as well as Chairman of the Board for Laurentian University (Sudbury).

He will continue to support MPL in an advisory and strategic role capacity.

Since his appointment as CEO and President in 2021, Vernon has drawn on his extensive experience to provide MPL with valuable strategic guidance and support operational growth. With this solid foundation, MPL will continue to grow and change under the ongoing leadership of founders Mike, Nicole, and Project Manager Carter Mayhew.

Quoted by Mike and Nicole Mayhew

“We would like to thank Vernon for his leadership and mentorship within Mayhew Performance Ltd. His strategic knowledge, guidance and leadership were major contributors to our success, especially in our early years. He paved our way for a bright future as we continue to grow within our business journey. We wish Vernon all the success on retirement, his personal businesses and as chairman of the board at Laurentian University.”

About Mayhew Performance

Mayhew Performance LTD. (MPL) specializes in battery electric vehicles and renewable energy and provides technical and operational expertise to deliver exceptional results under tight deadlines, all in close collaboration with global mining clients. Founder, Mike Mayhew, is a subject matter expert in battery technology, operational readiness, implementation, and performance with over 30 years of mining experience. Most notably, he was a pioneer in developing the first 40-tonne battery electric haulage truck from design to site implementation. This unique and practical expertise has enabled MPL to establish a proven track record of delivering safe production on schedule—and most importantly—on budget.
