

# Project Management

**Revalant** Project Management consultants utilize process, discipline, and leadership to break down functional silos, engage stakeholders, and ensure your initiatives are completed within budget, scope, and schedule.

You can begin a project with us, from initiation to completion, or if your project is missing milestones or is lacking momentum, contact us and we will deploy project management consultants to get your project back on track.

## **Revalant's Project Management Services can customize an offering that fits your needs and budget.**

- **Business Technology:** We provide consultative support to existing IT programs, prioritize the IT department's portfolio of projects, and offer a project management approach to end-to-end system selection and implementation projects within IT and other business functions. Specialization in Oscar, Salesforce CRM, AscentERP, Business Intelligence Solutions
- **Business Process Management:** We utilize continuous improvement methodologies combined with change management approaches to achieve stakeholder buy-in. With engaged stakeholders, the new or refined business processes are clearly defined and sustainably applied throughout your organization.
- **Change Management:** We blend professional project management with change management best practices to ensure projects are completed on time and on budget and address the human factors and culture critical to adoption and sustainability.
- **Supply Chain Optimization:** We identify constraints and inefficiencies in your supply chain, and provide process and technology recommendations to overcome these identified issues vetted by your organizational leaders

*Steps our Project Management consultants will take to ensure your project is a success include:*

1. Define a plan and organize processes.
2. Establish a schedule and plan.
3. Enforce and encourage teamwork.
4. Maximize resources.
5. Manage Integration.
6. Control costs.
7. Manage change.
8. Manage quality.
9. Retain and use knowledge.
