

COMPANY OVERVIEW

ITB, Inc. is a minority owned small business with 27 years' experience providing engineering and technical support services creating innovative solutions for government and industry clients. ITB is an award-winning successful company with capabilities in program/project management, engineering analysis, cutting-edge technology evaluation, domestic and international partnership development, and quality, safety & mission assurance.

CORE COMPETENCIES

CRITICAL INFRASTRUCTURE RESILIENCE PROFESSIONAL SERVICES ENERGY & ENVIRONMENT SAFETY & MISSION ASSURANCE

- Program and Project Management
- Environmental and Systems Engineering
- Technology Transfer
- Laboratory and Field Test Plans
- Risk Assessment
- Quality Assurance
- Grants Administration
- Collaborative Teaming
- Meetings and Conference Planning
- Domestic and International Partners

CRITICAL INFRASTRUCTURE RESILIENCE

PROFESSIONAL SERVICES

ITB provides services to improve the long-term viability and flexibility of critical facilities, operations, assets and systems.

Capabilities

- Systems of Systems Analysis
- Vulnerability and Risk Assessments
- Gap Analysis and Strategic Planning

Experience

- Water Resiliency Study for NASA Centers
- Assessment of renewable energy and storage options for NASA sites in Europe

ITB provides our clients with an independent trusted partner, providing insight into current and future technologies and management techniques.

Capabilities

- Program Management and Project Lifecycle Support
- Planning, Programming, Budgeting and Execution Support

Experience

- ITB has successfully managed aerospace and defense contracts and can provide a complete array of program/project management solutions.

ENERGY & ENVIRONMENT

SAFETY & MISSION ASSURANCE

ITB assists clients in reducing negative environmental and human health impacts, while managing water, energy and waste to improve economic and operational outcomes.

Capabilities

- Environmental and Risk Assessments
- Energy Forecasting and Data Analysis
- Regulatory Impact Analysis
- Green Technologies

Experience

- NASA Energy and Water Program: strategic planning and forecasting, data collection and analysis, program management
- NASA Technology Evaluation for Environmental Risk Mitigation: pollution prevention; corrosion prevention and control; green engineering and energy solutions.
- Other NASA Programs: identify and demonstrate remediation technologies; risk assessment, NEPA support.
- Natural and Cultural Resources subcontract for the DoD Legacy Resources Management Program.

ITB ensures the safety and enhances the success of client activities through the development, implementation, and oversight of safety, reliability, maintainability, and quality assurance policies and procedures.

Capabilities

- Risk Management
- Systems Safety
- Quality Assurance and Reliability

Experience

- Mission Assurance subcontract at NASA Jet Propulsion Laboratory
- ITB has 17 years of continuous safety and mission assurance experience across NASA including the Space Shuttle, and Ground System Development and Operations.
