## World TCM Forum

**Background:** World TCM Forum is established and registered on 19 May 2016 in Amsterdam, The Netherlands. The Forum is a global TCM organization based on the WeChat platform and information technology. The Forum has attracted TCM professionals worldwide and has now formed 21 academic WeChat groups and several specific WeChat groups, with a total of more than 10,000 members from more than 80 countries and regions. The management board is composed 290 members from 5 continents with seven academicians, TCM masters and experts serving as senior academic advisors to the Forum.

### Objectives of the Forum

The objectives of the Forum are to unite TCM professionals worldwide in promoting TCM and serving the need of healthcare of people locally.

1. The Forum serves first and foremost as the platform for TCM academic and information exchange to improve clinical skills of overseas TCM practitioners. The forum brings together many academic elites in Chinese medicine and acupuncture field at home and abroad. There are hundreds of people with senior professional titles or PhD degrees. Many of them are students of National masters of TCM or students of academicians of Chinese Academy of Sciences. Some of them are inventors of special acupuncture therapy. The predecessors and some of the current leaders of the State Administration of Traditional Chinese Medicine, the leaders of the World Federation of Chinese Medicine Societies and the leaders of the World Federation of Acupuncture-Moxibustion Societies gathered in this forum. The Forum has so far organized more than 250 TCM academic lectures, 42 weekends online gatherings and 16 concerts. The Forum has also launched the online radio program "World TCM Forum News" .
2. The Forum is also the platform to discuss strategic subjects such as overseas TCM development, TCM heritage and TCM education in order to assist overseas TCM legislation and protect the interests of overseas TCM practitioners. For example, in

2017 the Forum organized and participated in the legislative consultation on the TCM law in China.

3. The Forum as the information sharing platform aims to establish communications with Chinese governmental and international organizations to promote overseas TCM development. The News radio has so far aired 100 broadcasts.
4. The Forum is furthermore the spiritual home to overseas TCM professionals. We organize leisure and entertainment activities during the Chinese and western festivals and online gatherings in the weekends.

In particular, the Forum assisted the Overseas Chinese Bureau of the Beijing Municipality successfully organizing the 2016 and 2017 Overseas Chinese TCM Congresses. During the congress, a cooperation agreement was signed between the Overseas Chinese Bureau of the Beijing Municipality, Beijing Administration of TCM and World TCM Forum. The First World TCM & Acupuncture Forum and Traditional Medicine Fair was convened in Buenos Aires, Argentina on 19-20 May 2018. More than 500 delegates from over 20 countries across the world attended the forum.

In short, World TCM Forum was born in the internet age, characterized by instant spreading of information, high efficiency, and wide coverage. We strive to make better use of the Forum to serve TCM professionals all over the world and to facilitate TCM development in the world.

Affiliated in 2019 with the

## Held in person at the National 4-H Conference Center in Washington, DC
