Using CalTopo Traveler map

What is the magnetic bearing from Peak of Ridges to Billfish Mountain

What is the magnetic bearing from The Traveler to South Branch Mountain

You are on the summit of Barrell Ridge and take a magnetic bearing on a peak a short distance off. Your magnetic bearing is  $130^{\circ}\text{M}$

You are on the summit of Black Cat Mountain and take a magnetic bearing on a peak a short distance away. Your magnetic bearing is  $68^{\circ}\text{M}$

What is the elevation Peak of Ridges?

What is the elevation of The Traveler?

What is the elevation of the low spot on the trail between Peak of Ridges and The Traveler?

What is the Lat/Lon of the East end of the Howe Brook Trail

What is the Lat/Lon for the campsite on Long Pond

Identify the feature given coordinates  $46^{\circ} 5' 28'' \text{ N } 68^{\circ} 54' 52'' \text{ W}$

Identify the feature given coordinates  $46^{\circ} 7' 10'' \text{ N } 68^{\circ} 54' 50'' \text{ W}$

What is the straight-line distance between Black Cat Mountain and Barrell Ridge

What is the straight-line distance from Billfish Mountain to Peak of the Ridges

Using the CalTopo Evans Notch map

What is the Lat/Lon of West Royce

What is the Lat/Lon of Ragged Jacket

Identify the location given coordinates  $44.2285^{\circ}$  N  $71.068^{\circ}$  W

Identify the location given coordinates  $44.2775^{\circ}$  N  $71.0075^{\circ}$  W
